

Urban Water Management Plan Workgroup

2020 Urban Water Management Plan Guidebook:

The Draft 2020 UWMP Guidebook has been developed with input from the stakeholder UWMP Working Group. This guidebook provides updates to the 2015 UWMP Guidebook, including new statutory requirements. It is intended to provide urban water suppliers with technical assistance for preparing a 2020 UWMP; use of the 2020 UWMP Guidebook is voluntary.

Urban water suppliers that provide water for municipal purposes to more than 3,000 customers or serving more than 3,000 acre-feet annually, are required to prepare and submit a UWMP every five years. The 2020 UWMPs are due to DWR by July 1, 2021.

I will be attending the meeting hosted by the Department of Water Resources for the newly released draft guidebook on: Wednesday September 16, 2020
