

**REPORT TO THE BOARD OF DIRECTORS
BOARD MEETING OF April 4, 2024
AGENDA ITEM NO. 8. A.**

SUBJECT: LABORATORY ANALYTICAL SERVICES

PREPARED BY: Adam Brown, Operations Manager

APPROVED BY: Nicholas Schneider, General Manager

BACKGROUND

The District collects weekly, quarterly, and annual water samples for analysis associated with the raw, treated, and wastewater systems. These samples ensure the District is meeting water quality objectives and in compliance with the California State Water Resources Control Board. These samples are collected by District staff and analyzed by a California-certified laboratory.

DISCUSSION

The District’s annual laboratory cost can vary depending on the number of samples collected, but costs generally range between \$25,000 and \$30,000. In recent years the District has exclusively been using California Laboratory Services (CLS). To evaluate current market conditions the District procured analytical pricing from certified laboratories within proximity to process District water samples. A summary table of the most common analytes is provided below:

	SGS	CLS	Pace Analytical	Alpha Analytical
Total Coliform (SM9223)	\$65	\$17	\$	\$50
Haloacetic Acids (EPA 552.2)	\$90	\$130	\$	\$125
Trihalomethanes (EPA 524.2)	\$65	\$75	\$	\$95
General Minerals/ Primary Inorganics	\$335	\$165	\$	\$275
General Physical/ Secondary	\$420	\$205	\$	\$350
24-Hour TAT	100%	100%		100%
Drop Off Location	Rocklin, Ca	Rancho Cordova Shingle Springs	Sacramento Chico for BacT	Elk Grove (Courier Fee)

Note: TAT – Turn around time, SGS Excelchem Laboratories, Inc (SGS), California Laboratory Services (CLS)
Pace Analytical did not submit costs.

Based on a review of the above table CLS is the lowest laboratory analytical provider for the District and will be used moving forward to meet District sampling needs.

FISCAL IMPACT

The fiscal impact of this item varies by the amount of tests that are required per year by the State of California. This analysis was provided to assess if the District was using the most cost-effective lab. Most of the costs from the lab that the District currently uses are the lowest of the three labs that participated in the analysis. We didn't receive the cost from Pace Analytical but did learn that all BacT tests need to get to Chico, CA which would be a large cost to the District.

CEQA ASSESSMENT

This is not a CEQA related project.

RECOMMENDED ACTION

Staff recommends the Board of Directors of the Georgetown Divide Public Utility District confer with the evaluation of staff and continue to work with CLS labs.

REPORT TO THE BOARD OF DIRECTORS

Board Meeting of April 4, 2024

Agenda Item No. 8. B.

AGENDA SECTION: ACTION ITEMS

SUBJECT: APPROVE PROFESSIONAL SERVICES AGREEMENT WITH ECORP CONSULTING, INC. FOR ENVIRONMENTAL CONSULTING SERVICES IN AN AMOUNT NOT TO EXCEED \$225,000

PREPARED BY: Adam Brown, Operations Manager

Approved By: Nicholas Schneider, General Manager

BACKGROUND

In June 2022 the District executed a Professional Services Agreement (PSA) with ECORP Consulting, Inc. for an amount not to exceed \$180,000, to support the District in completing Capital Improvement Plans (CIP) and general construction projects that often require environmental review. The District desires to enter into a new PSA with ECORP Consulting, Inc. in an amount not to exceed \$225,000.

DISCUSSION

Following execution of the PSA the District has issued a total of six task orders as follows:

Task Order #1 | On Call Environmental Review: This task supports daily District operations and has expended 25% or \$3,800 of task budget that is funded by the District's operating budget.

Task Order #2 | WaterSmart Canal Lining: WaterSmart Canal Lining task order included the environmental support to complete the canal lining project associated with the United States Bureau of Reclamation (USBR) grant. This project has expended 100% or \$54,000 and is partially funded by grant proceeds, El Dorado Water Agency (EDWA), and District CIP funds. No additional funds are anticipated to be expended.

Task Order #3 | Walton Lake Sediment Removal: This task order is for environmental review support to dredge Walton Lake. The project has expended 10% or \$7,900 and will be partially reimbursed by FEMA emergency funding.

Task Order #5 | Emergency Pipe Repair: This task order was created to cover emergency response generally related to the Mosquito Fire Emergency. Specific work included canal mitigation. This project has expended 85% or \$14,600 of task budget

which was paid out of the District's CIP and has been included in Pacific Gas and Electric (PG&E) litigation. This project is complete.

Task Order #6 | United States Department of Agricultural (USDA) Rural Development Application: This task order is to develop a preliminary engineering report for the USDA Rural Development application to pipe a large section of the upper canal. This project has expended approximately 45% or \$44,115 which will be reimbursable upon allocation of funds by USDA.

A total of approximately \$124,415 has been expended under ECORP PSA which has been distributed between reimbursable, CIP, and operating funds totaling \$112,715, \$7,900, and \$3,800, respectively. In order to progress on projects that are critical for the District to supply clean and reliable water to District residents it is recommended new PSA in a not to exceed amount is executed with ECORP Consulting, Inc.

Upcoming projects include general on-call services and CIP projects. On-call services and CIP projects are estimated at \$225,000.

FISCAL IMPACT

With the exception of on-call services totaling approximately \$12,000, the remaining expenditures will be funded by outside-funded projects (FEMA, USDA, ~\$125,000) and CIP.

CEQA ASSESSMENT

This action is not subject to CEQA.

RECOMMENDED ACTION

Staff recommends the Board of Directors of the Georgetown Divide Public Utility District adopt the attached Resolution 2024-XX authorizing the General Manager to execute a PSA with ECORP Consulting, Inc. in an amount not to exceed \$225,000. Resolution 2024-XX is included as **Attachment 1** in an amount not to exceed \$225,000.

ALTERNATIVES

The Board may (a) Request substantive changes to the Resolution for staff to implement; (b) Reject the Resolution.

REPORT TO THE BOARD OF DIRECTORS

Board Meeting of April 4, 2024

Agenda Item No. 8. C.

AGENDA SECTION: ACTION ITEMS

SUBJECT: DECLARATION OF PROJECTED WATER SEASON

PREPARED BY: Adam Brown, Operations Manager

Approved By: Nicholas Schneider, General Manager

BACKGROUND

Ordinance 2023-04 establishes rules and regulations for irrigation service in the Georgetown Divide Public Utility District. Section 4, Distribution of Water, states that the irrigation season shall generally be from May 1 through September 30 of each year. The Board of Directors shall consider changes to the irrigation season in response to multiple factors, including:

- Current Water Supply;
- District Forecast Tool;
- Current Conditions;
- Customer Demand; and
- Climate Conditions (Fire Impacts)

DISCUSSION

At the time of this report, the Stumpy Meadows Reservoir (SMR) is at full capacity of 21,206 acre-feet (ac-ft). SMR first reached capacity on February 5, 2023, and a recorded a maximum inflow discharge of 117 cubic feet per second on February 19, 2024. The most recent snow course measurement collected from the nearest station at Robbs Valley on March 15, 2024, recorded 98% of average snowpack with water content of 12.0 inches. For comparison, 2023 was recorded at 154% of average with a water content of 21.0 inches.

An evaluation of total inflow into SMR, for the remaining of the water year¹, was completed utilizing the District's forecasting tool. Based on the storage level of 21,206 acre-feet (ac-ft) measured on March 15, 2024, total inflow into SMR is projected to be between 7,345 ac-ft (95% exceedance) to 125,212 ac-ft (10% exceedance), with a forecasted 50% exceedance of 30,508 ac-ft by September 30, 2024. Based on projected demand and utilizing the most conservative projection scenario, the District can anticipate an SMR capacity of 16,645 acre-feet at the end of the 2023/2024 water year. Forecasting tool output charts are included in **Attachment 1**.

¹ Water Year – October 1st through September 30th

The 1977 and 2021 historical conditions were entered into the current conditions to understand potential water availability for the 2025 water season and any demand reduction actions that may be needed. The two scenarios are detailed below:

- Using 1977 conditions, the estimated SMR level would be anticipated to be at a storage of 16,218 ac-ft at the second week of April 2025. This would trigger Stage-2 shortage level of the District's *Water Shortage Contingency Plan* (WSCP); and
- Using 2021 conditions, the estimated SMR level would be anticipated to be at a storage of 18,537 ac-ft at the second week of April 2025. This would trigger Stage-1 of the WSCP.

As presented above one dry year or continuous dry years would significantly impact demands of the District and during those periods to meet minimum health and safety requirements the District's WSCP would need to be implemented.

FISCAL IMPACT

There is no fiscal impact.

CEQA ASSESSMENT

This is not a CEQA project.

RECOMMENDED ACTION

Current storage conditions allow for the declaration of a normal water year. Based on the following summary District staff recommends a May 1 through September 30 irrigation season:

- Representative 2024/2023 snow course conditions and water content are 63% and 57% percent respectively;
- The District's forecast model indicates SMR will spill until April 30, 2024, therefore storage will likely be used earlier in the irrigation season. Specifically, a May 1st start date would use no additional storage supply and May 15th start date would use an additional 700 ac-ft of storage supply.
- Numerous District construction projects, specifically canal improvement projects typically align with a normal irrigation season.

On March 19, 2024, the Irrigation Committee (IC) voted to recommend a May 15, 2024, start date for the 2024 irrigation season.

ALTERNATIVES

The Board may (a) Request substantive changes to the Resolution for staff to implement; (b) Reject the Resolution.

Stumpy Meadows reached capacity on February 5, 2024, therefore it is anticipated no water delivery restrictions for the 2024 water season. Forecast output charts are included on page two.

30-Day Outlook

90-Day Outlook

Temperature and precipitation outlooks indicate short-term above average rainfall and long-term above average temperature. Impact to District operations indicate heavy vegetation growth as a result of above normal to normal precipitation with above average temperature.

California Data Exchange Center (CDEC) February 13, 2024, Bulletin 120 (B120) recorded American River Watershed at 85% of average with a forecasted April-July runoff, at a 50 percent exceedance scenario, that would be at 83% of average. With reasonable certainty the District can expect a lower than average spring runoff.

A review of the most current conditions indicate a normal irrigation demand water year (May 1 through September 30).

Informational Item
March 7, 2024

“During January 2024, above-average sea surface temperatures (SST) continued across most of the equatorial Pacific Ocean. SST anomalies weakened slightly in the eastern and east-central Pacific, as indicated by the weekly Niño index values. However, changes were more pronounced below the surface of the equatorial Pacific Ocean, with area-averaged subsurface temperature anomalies returning to near zero. Although above-average temperatures persisted in the upper 100 meters of the equatorial Pacific, below-average temperatures were widespread at greater depths. Atmospheric anomalies across the tropical Pacific also weakened during January. Low-level winds were near average over the equatorial Pacific, while upper-level wind anomalies were easterly over the east-central Pacific. Convection remained slightly enhanced near the Date Line and was close to average around Indonesia. Collectively, the coupled ocean-atmosphere system reflected a weakening El Niño.

The most recent IRI plume indicates a transition to ENSO-neutral during spring 2024, with La Niña potentially developing during summer 2024. Even though forecasts made through the spring season tend to be less reliable, there is a historical tendency for La Niña to follow strong El Niño events. The forecast team agrees with the latest model guidance, with some uncertainty around the timing of transitions to ENSO-neutral and, following that, La Niña. Even as the current El Niño weakens, impacts on the United States could persist through April 2024 (see CPC seasonal outlooks for probabilities of temperature and precipitation). In summary, a transition from El Niño to ENSO-neutral is likely by April-June 2024 (79% chance), with increasing odds of La Niña developing in June-August 2024 (55% chance).”

DRAFT

**REPORT TO THE BOARD OF DIRECTORS
BOARD MEETING OF APRIL 4, 2024
AGENDA ITEM NO. 8. D.**

SUBJECT: APPROVE A PROFESSIONAL SERVICES AGREEMENT FOR THE MONITORING OF STREAM GAGES AND WATER RIGHTS REPORTING WITH WESTERN HYDROLOGICS

PREPARED BY: Adam Brown, Operations Manager

APPROVED BY: Nicholas Schneider, General Manager

BACKGROUND

On June 24, 2015, Senate Bill (SB) 88 was signed into law which requires gaging of direct diversion and storage facilities by those who divert 10 acre-feet of water per year under a permit or license. Georgetown Divide Public Utility District's (the District) water supply originates within the Pilot Creek watershed and is impounded in a 21,206-acre-foot surface storage facility (Stumpy Meadows Reservoir). Approximately two miles downstream of Stumpy Meadows, a direct diversion located on Pilot Creek diverts source water into a series of open canals and pipes for conveyance to District treatment plants and seasonal irrigation service. Currently, the District operates a total of 13 gages. The State requires that each gage be monitored monthly by a qualified individual.

DISCUSSION

The District has engaged Western Hydrologics (WHC) to assist us in complying with SB 88. Specific tasks include:

1. Task 1 – Provide monthly maintenance of gages installed within the canal with bi-monthly monitoring and monthly monitoring and maintenance of gages installed in natural discharge.
2. Task 2 - Preparing an annual water rights report to be submitted to the State Water Resources Control Board – Water Rights Division.

Both Tasks 1 and 2 are described in detail in WHC's proposal (Attachment A) and are proposed to be recurring for a total of three years.

The District staff propose to award the contract to WHC because it is the only source from which the services can be obtained for this work. Staff's justification for awarding the contract to WHC is as follows:

1. WHC has installed all District monitoring devices and is intimately familiar with our gaging systems eliminating and learning curve (and reducing cost) associated with hiring a new consultant;
2. WHC is currently performing monthly monitoring and maintenance of the District's gages monthly;
3. WHC has extensive knowledge of the District's water rights and operations. Limiting the number of contractors with knowledge of the District's critical infrastructure is in the District's best interest;
4. WHC has extensive knowledge of the Pilot Creek and surrounding watersheds; and
5. Retaining WHC will result in efficiencies and cost savings for the District.

FISCAL IMPACT

This work and the associated cost has already been included in the Fiscal Year 2023/2024 and 2024/2025 budget and is funding from Water Fund 10. Assuming the contract period begins in April 2024 the fiscal impact for fiscal year 2023/2024 will be approximately \$10,500.

The proposed contract also includes funding for three additional years of consulting services at a cost of \$52,935 per calendar/fiscal year. This includes 12 months of stream monitoring and submittal of one Annual Water Rights report for each of the three additional contract years.

The total length of the WHC contract is for five years, beginning January 1, 2021 and extending until December 31, 2026 is estimated at \$169,305. The District is added an additional 2 years to the end of the original contract.

CEQA ASSESSMENT

The proposed scope of work is not subject to CEQA project.

RECOMMENDED ACTION

Staff recommends the Board of Directors of the Georgetown Divide Public Utility District adopt the attached Resolution authorizing the General Manager to execute a Professional Services Agreement with WHC for stream gage monitoring and maintenance, water rights reporting, and development of an operations forecast tool for the amount of \$169,305. Resolution 2024-XX is included as **Attachment B**.

RE: *Proposal for Pilot Creek Stream Gaging Maintenance and SWRCB Water Usage Reporting*

Dear Mr. Brown:

As requested, Western Hydrologics (WHC), in cooperation with Western Hydrologic Systems (WHS), is pleased to present this cost estimate to support Georgetown Divide Public Utility District's stream gaging and water rights usage reporting program. The District has twelve (12) stream gages and one (1) storage gage within the Pilot Creek watershed. The gages provide the information necessary to report the District's water rights usage and will aid in operations forecasting. These two tasks are described below.

Task 1: Gage Maintenance, Monitoring, and Reporting

Except for the Bacon Canyon diversion, all GDPUD gages will measure stage. To convert the stage to flow, a series of discharge measurements will be needed at multiple flow rates to develop and maintain rating curves. Rating curves will be maintained by performing discharge measurements at the following gages:

- Pilot Creek above Stumpy Meadows (PC-1)
- Pilot Creek below Mutton Canyon (PC-2)
- Pilot Creek Diversion (PC-3)
- Stumpy Meadows Reservoir (PC-4)
- Otter Creek Diversions
- Mutton Canyon
- Bacon Canyon
- Above Unnamed Stream (CS#1)
- Below Unnamed Stream (CS#1)
- Above Deep Canyon (CS#2)
- Below Deep Canyon (CS#2)
- El Dorado Conduit Above CS#3
- El Dorado Conduit Below CS#7

The gage monitoring program includes visiting the gage sites to collect data and perform routine maintenance at least once per month. Because the canals have been maintained, maintenance visits to the canals will be done every other month. The diversions will still be visited to check on gage performance, but discharge measurements will be done every other month. All other gages will be fully serviced each month.

Gage maintenance visits will include field measurements using USGS- approved Price AA or Pygmy current meters. The purpose of these visits is to develop and then verify the rating curves and identify shifts in the stream reach control. During the visits, the hydrographer will conduct gage equipment checks and make any necessary repairs. Occasionally, replacement of batteries or gaging equipment due to failure or vandalism will be necessary. Although the purchase of replacement equipment is outside the scope of this proposal, removal and replacement of the damaged equipment can generally be done during routine maintenance trips at no additional charge.

Responding to failures

Occasionally, unforeseen failures or problems occur. We understand the urgent need to get those problems resolved and will evaluate and begin repairs as soon as possible following notification.

WHC proposes to make emergency repairs on a time and materials basis. Hourly fees will be in accordance with our current billing rates, attached. Any materials needed for repairs can be purchased by GDPUD. Alternatively, WHC can order any replacement parts and invoice the District for reimbursement.

Transportation

Due to the remote locations and varying weather conditions, several modes of transportation will be used to access these sites throughout the year. Access may be achieved by All-Terrain Vehicle (ATV), snowmobile, or truck.

Safety

Ordinarily, the gage sites can be maintained by two hydrographers and can be accessed by truck. Based on our experience with the District’s gaging locations, we anticipate the need to occasionally use snowmobiles to access the gages during the winter months. When snow is on the ground, we will need to send out two hydrographers and two snowmobiles. The redundancy is necessary in case of injury or mechanical failure of one of the snowmobiles.

Task 1 Cost.....\$2,947 – \$4,955 per month*

*Cost difference dependent upon service level and snow conditions.

2024 Annual Task 1 Estimated Cost \$47,415

Task 2: Water Rights Usage Reporting

Water rights usage will be determined by permit and reported on behalf of GDPUD as required by the State Water Resources Control Board (SWRCB). GDPUD has several permits and Pre-1914 (Senior) water rights on Pilot Creek and its tributaries.

The SWRCB requires water right holders to report water use by February 1. Notices to Water Right holders are sent each year near at the end of October to notify the holders about which rights need to be reported. Each notice contains a unique User ID and Password used to access the State Board website for online reporting. The District will need to provide the notices to WHC so that the SWRCB website for each water right can be accessed.

This task can be completed on a time and materials basis. Rates charged will be in accordance with Attachment A, Rate Schedule for Professional Services.

2024 Task 2 Cost..... \$5,520

WHC proposes to perform Tasks 1 & 2 for a three-year period beginning January 1, 2024. For years two and three of this proposed contract period, on January 1 of each year, the cost of monitoring, maintenance and reporting will be adjusted by the percentage change in the Employment Cost Index for Total Compensation (seasonally adjusted) – Private Industries, Natural Resources – Construction and Monitoring. The adjustment effective January 1, 2025 will be found by multiplying the 2024 costs by the December 2024 ECI and dividing by the December 2023 ECI. Subsequent annual adjustments will be calculated in a similar manner with the appropriate costs and indices.

WHC appreciates the opportunity to provide this cost estimate. Estimates are based on the Rate Schedule for Professional Services (Attachment A). If you have any questions, please contact me at (916) 390-5829.

Sincerely,

Jeffrey K. Meyer, P.E.
Principal

Board Meeting of April 4, 2024

Agenda Item No. 8. E.

AGENDA SECTION: ACTION ITEMS

SUBJECT: APPROVE AMENDED PROFESSIONAL SERVICES AGREEMENT WITH BENNETT ENGINEERING SERVICES INC FOR ENGINEERING SERVICES IN AN AMOUNT NOT TO EXCEED \$675,000

PREPARED BY: Adam Brown, Operations Manager

Approved By: Nicholas Schneider, General Manager

BACKGROUND

In June 2022 the District executed a Professional Services Agreement (PSA) with Bennett Engineering Services Inc. for an amount not to exceed \$270,000, to support the District in completing Capital Improvement Plans (CIP) and general construction projects that often require professional engineering services prior to full implementation. The District desires to enter into a professional services agreement with Bennett Engineering Services Inc. for additional engineering services in an amount not to exceed \$675,000.

DISCUSSION

Following execution of the PSA the District has issued a total of six task orders as follows:

Waste Discharge Requirement (WDR) Task Order: This task order included WDR recommendation associated with accessory dwelling units and monitoring and sampling requirements. This project expended 65% or \$34,800 of task budget and is complete.

Task Order #1 | Chimney Flat Line Replacement: Chimney Flat task order included engineering support to complete a treated water line on Chimney Flat Court. This project expended 93% or \$7,900 task budget and is complete.

Task Order #2 | Emergency Response: This task order was created to cover emergency response generally related to the Mosquito Fire Emergency. Specific work includes erosion control, road repair, and canal mitigation. This project has expended 54% or \$35,000 of task budget which is partially reimbursable through the Federal Emergency Management Agency (FEMA) and has been included in Pacific Gas and Electric (PG&E) litigation.

Task Order #3 | On Call Engineering: This task order supports daily District operations and has expended 76% or \$37,000 of task budget that is funded by the District's operating budget.

Task Order #4 | Auburn Lake Trails Pump Station 16: This project includes emergency spill response and rehabilitation of Station 16. The project has expended 36% or \$26,500 and a project has been developed for CIP inclusion. Expenses are funded by the wastewater fund budget.

Task Order #5 | Walton Lake Sediment Removal: This task order is for engineering support to dredge Walton Lake. The project has expended 52% or \$13,000 and will be partially reimbursed by FEMA emergency funding. To fulfill FEMA requirements that include reservoir core sampling an additional \$76,304 is scheduled to be amended to this task order.

Task Order #6 | Mark Edson Dam Reporting: As part of Department of Water Resources (DWR) – Division of Safety of Dams (DSOD) reporting requirement a professional engineer review and stamped annual report. This project has expended 10% or \$2,000 and is funded by the District's operating budget.

Task Order #7 | Annual Distribution Tank Inspection and Lining: This task order includes inspection, procurement, and project completion support for the District's annual distribution tank lining. This project has expended 8% or \$4,500 and is funded by the District's CIP fund.

Task Order #8 | United State Department of Agricultural (USDA) Rural Development Application: This task order to develop a preliminary engineering report for the USDA Rural Development application to pipe a large section of the upper canal. This project has expended approximately 86% or \$37,000 which will be reimbursable upon allocation of funds by USDA. No additional expenditures are expected for the application process.

A total of approximately \$198,000 has been expended under Bennett Engineering PSA which has been distributed between reimbursable, CIP, and operating funds totaling \$85,000, \$74,000, and \$39,000, respectively. In order to progress on projects that are critical for the District to supply clean and reliable water to Divide residents it is recommended for a new PSA in not to exceed amounts presented below be executed with Bennett Engineering.

Upcoming or continuing projects include general on-call services, full implementation of the USDA project, Walton Lake sediment removal and 2023 federal funding. In order to complete these projects additional PSAs will need to be executed with Bennett Engineering. One PSA for full scale USDA project and general on-call/CIP projects.

FISCAL IMPACT

This PSA has a fiscal impact of \$675,000. Approximately \$16,000 of this will be applied to the District operating budget. The \$659,000 remaining is slated to be reimbursed through various grant funding sources such as FEMA, USBR, and Federal and State funding.

CEQA ASSESSMENT

This action is not subject to CEQA.

RECOMMENDED ACTION

Staff recommends the Board of Directors of the Georgetown Divide Public Utility District adopt the attached Resolution authorizing the General Manager to execute a PSA(s) with Bennett Engineering for engineering services as follows:

- General on-call and CIP projects not to exceed \$270,000; and
- USDA project not to exceed \$405,000.

BACKGROUND

The Georgetown Divide Public Utility District (“District”) Board of Directors adopted Resolution No. 2005-05 establishing a financial reserve policy (“Reserve Policy”) on May 10, 2005. On November 13, 2018, the District Board of Directors amended the Reserve Policy through the adoption of Resolution No. 2018-53.

POLICY TITLE: Financial Reserve Policy and Procedures

POLICY NUMBER: 2225

Adopted: November 13, 2018

Amended:

REFERENCES: Governmental Accounting Standards Board Statement No. 54

Section 2225.01 Purpose

The Georgetown Divide Public Utility District (the District) shall maintain reserve funds from existing unrestricted funds as designated by the District's Reserve Policy. This policy establishes the procedure and level of reserve funding to achieve the following specific goals:

- a) **Operating Reserve:**
The purpose of the Operating Reserve is to cover operating and administrative costs, as well as the difference in timing between the District's receipts and expenses. As such, the Operating Reserve accommodates rate stabilization in order to guard against water rate fluctuations.
- b) **Capital Replacement Reserve:**
The purpose of the Capital Replacement Reserve is to meet future capital expenditure and surplus property needs.
- c) **Emergency Reserve:**
The purpose of the Emergency Reserve is to cover the costs of potential replacement costs related to catastrophes; net of any insurance proceeds received.
- d) **Other reserves as legally mandated.**

The District shall account for reserves as required by Governmental Accounting Standards Board Statement No. 54, which distinguishes reserves among these classes: non-spendable, restricted, committed, assigned, and unassigned. The reserves stated by this policy, unless otherwise required by law, contract, or District policy shall be deemed "assigned" reserves.

Section 2225.02 Policy

Use of District Reserves is limited to available "Unrestricted" Funds (not obligated by law, contract, or agreement), including donations, interest earned, fees for service, or other non-grant earnings. All special use funds will be designated by formal action of the Board of Directors.

- a) **Operating Reserve:**
Operating Reserve will accumulate from unrestricted funds in an amount equal to

120 days of operating expenses.

- b) Capital Replacement Reserve:
Capital Replacement Reserve will accumulate from existing unrestricted funds in an amount determined by analysis of the annual amount needed for replacement and rehabilitation based on current value of assets and anticipated service life as described by the American Water Works Association, or as described in a Board adopted rate study.

- c) Emergency Reserve:
Emergency Reserve will accumulate from unrestricted funds in an amount equal to replacement cost, less any amounts anticipated to receive from insurance, the Federal Emergency Management Agency (FEMA), and the State Office of Emergency Services (OES), less the Capital Replacement Reserve. The likelihood of a loss generating a net cost to the District which exceeds the Capital Replacement Reserve would be remote. The Emergency Reserve would be considered to be funded by the Capital Replacement Reserve.

Section 2225.03 Reserve Fund Utilization

Reserve Balances are designated by the Board of Directors from unrestricted funds. Designation by the Board is authoritative and any departure from the designation is a violation of this policy. As such, any changes or recommendations for changes must be presented to, and approved by, the Board of Directors. Therefore, the use of funds are to be used for their intended use, defined as follows:

- a) Operating Reserve:
Operating Reserve funds will be used exclusively to ensure the ability to cover immediate operating cash flows.

- b) Capital Replacement Reserve:
Capital Replacement Reserve funds shall be limited to costs related to improve capital assets, increase their useful life, or add to the value of these assets.

- c) Emergency Reserve:
Emergency Reserve funds are to be used to cover the cost of capital replacement, net of any insurance proceeds or reimbursements from State, Federal, or other grant agencies.

- d) Excess Revenue:
In the event excess revenue exists at the end of the fiscal year, these funds may be used to meet reserve balance thresholds, and the Board of Directors has the authority to designate funds to reserve funds as deemed necessary.

Section 2225.04 End of Year Fund Transfer

At the end of the fiscal year a fund transfer is authorized by the Board that takes funds from the Water Fund and deposits them into the Capital Reserve Fund. This fund transfer will occur after the audited report and with recommendations from the District CPA. The Operating Reserves for the District are calculated to maintain a 120-day operating reserve and the remainder is to be authorized by the Board to transfer to the Capital Reserve Fund.

Section 2225.054 Monitoring Reserve Levels

The General Manager, in collaboration with District Finance personnel, shall establish an internal accounting mechanism set forth by an administrative policy in order to track and report on reserve activity, including the source and use of funds transferred in and out of reserve funds. Also included in the administrative policy shall be additional procedures to follow when reserve balance thresholds are met. In addition, the General Manager and finance personnel shall perform a reserve status analysis annually, to be provided to the Board of Directors' during annual deliberation for approval of budget and reserve funds.

Additional information may be provided to the Board of Directors upon the occurrence of the following events:

- a) When a major change in conditions threatens the reserve levels established by this policy or calls into question the effectiveness of this policy;
- b) Upon General Manager and/or Board request.

Operating Reserve funds will be used exclusively to ensure the ability to cover immediate operating cash flows.
- b) Capital Replacement Reserve:
Capital Replacement Reserve funds shall be limited to costs related to improve capital assets, increase their useful life, or add to the value of these assets.
- c) Emergency Reserve:

In addition, the General Manager and finance personnel shall perform a reserve status analysis

annually, to be provided to the Board of Directors during annual deliberation for approval of budget and reserve funds.

Additional information may be provided to the Board of Directors upon the occurrence of the following events:

CHAPTER 2: COMPENSATION - WORKING CONDITIONS

2.1 COMPENSATION

The classifications, salaries, ranges and steps of the employees within the bargaining unit are included in the attached **Attachment A**. Step increases are available to employees that have a minimum of one-year continuous service in the existing step. Available step increases will be provided on a calendar year basis upon receipt of a "meets standards" or better performance review and for qualified employees. Step increases will be provided on the first day of the first pay period following the employee's anniversary date. The General Manager may provide additional step increases in recognition of outstanding service or to adjust inequities.

2.2 WORKWEEK

The work week means a seven (7) day period beginning at 7:45 a.m. on each Monday and ending at 7:45 a.m. on the following Monday. Employees assigned to a 9-80 schedule or 4-10 schedule will have their workweek defined to prevent the payment of overtime as a result of the schedule.

The General Manager shall fix the hours of work with due regard for the convenience of the public and the laws of the State and the District. The General Manager may change the work schedule at his or her discretion. An employee shall:

- A. Work the hours and job duties assigned per the operational needs of the District.
- B. Work such additional hours or job duties as the District may request.
- C. Understand that nothing in these policies shall be construed as a restriction on the District's right to schedule workdays and require overtime work. The parties understand that changes to the current District work schedule will be implemented to minimize and reduce scheduled overtime.
- D. Be expected to perform other job duties at various times as necessary and as requested, per operational needs of the District, at various times as necessary.

Key Personnel - Those employees subject to standby and/ or emergency service calls shall refrain from other forms of public service (i.e. fire departments, sheriff's reserve, etc.) that, by their very nature, might provide a conflict with the performance of said duties.

Attendance - It shall be the responsibility of each employee to be prompt and in regular attendance on the job.

Time Cards - It is the employees' responsibility to sign their time cards and to certify the accuracy of all time recorded. The employee's supervisor will review and then sign the time card before submitting it for payroll processing.

2.2.1 ALTERNATIVE WORK SCHEDULES

- A. A non-exempt employee's workweek is a fixed and regularly recurring period of 168 hours – seven consecutive 24-hour periods. It need not coincide with the calendar week but may begin on any day and at any hour of the day. The District's typical fulltime workweek consists of five, eight-hour workdays, 8:00 am to 5:00 pm, Monday through Friday however, alternative work schedules as outlined in this MOU, are permissible with the approval of the General Manager. A non-exempt employee is paid on an hourly basis and these employees are eligible to earn overtime pay.
- B. The General manager may implement alternative work schedules (AWS) for non-exempt employees (as defined below) in their department so long as adequate staffing is provided and the AWS is in conformance with the following provisions:
1. In the interest of consistency and efficiency, use of AWS shall not result in significant variation in a work schedule or adversely affect service delivery.
 2. The proposed AWS must first be submitted to the General Manager for approval using the Alternative Work Schedule Request form before being implemented.
 3. The General Manager/Human Resources shall assure that records documenting the time of day and day of week on which the employee's workweek begins shall be kept for each employee placed on an AWS.
 4. Granting and continuing an AWS is at the discretion of the General Manager. Although scheduling options may vary from department to department depending upon the specific operational requirements, there are two available alternative work schedules that differ from the usual, Monday through Friday, 8:00 am to 5:00 pm work schedule, "9/80", "4/10":
 - a) "9/80" Schedule: Employees will work eight 9-hour days and one 8-hour day every two weeks, and have one regularly scheduled day off (RDO) every other week which always falls on the same day of the week as the 8-hour work day on the opposite week during the pay period. The employee's RDO may not be changed for any purpose unless the change is intended to be permanent. The start of the workweek is deemed to be midway (4 hours) into the employee's 8- hour day. The workweek ends seven days later midway through the employee's next 8-hour regular day off (RDO). Whenever the beginning of an employee's workweek changes, e.g. changing to or from an alternative work schedule, a situation in which one or more hours or days falls in both the "old" workweek as previously constituted and the "new" workweek occurs, a computation of overtime due to overlapping workweeks must be done. Contact the Payroll Division for help with overlapping workweek overtime computations.
 - b) "4/10" Schedule: Employees will work four 10-hour days per work week and have one day off per work we

2.3 OVERTIME HOURS/AUTHORIZATION

The District shall pay its nonexempt employees overtime compensation at the rate of one and one-half (1 ½) times the regular rate of pay, for all work in excess of eight (8) hours in one workday for those on a 5-8 schedule, nine (9) hours in one workday for those on a 9-80 schedule or ten(10) hours in one workday for those on a 4-10 schedule, and to the extent required under the Fair Labor Standards Act. The District has the right to require employees to work overtime to meet the operational needs of the District. Refusal to work overtime shall result in disciplinary action.

Overtime work for non-exempt employees must always be approved before it is performed. An employee, who works overtime hours without proper written authorization from his or her supervisor, may be disciplined pursuant to the Disciplinary Procedures outlined in Chapter 7 of this Agreement.

Employees may accrue compensatory time off (CTO) in lieu of overtime or call out pay. The accrual rate for compensatory time off shall be one and one half (1-1/2) hours each hour of compensatory time worked.

The maximum accumulation of compensatory time shall be forty (40) hours.

Once an employee terminates employment, the District shall cash out the remaining balance of compensatory time hours

2.4 ON-CALL PROCEDURES AND COMPENSATION

The District has the obligation of providing a safe and reliable water supply and an obligation to meet its contracts. Employees of the District share in this obligation. All employees of the District may be required to be on-call when necessary to meet District obligations.

2.4.1 On-Call Procedures

On-call personnel are those employees who are required to be continuously available outside of regular business hours to respond to calls for assistance. Pagers or other communication devices provided by the District to on-call employees must be kept with the employee and in the mode to receive at all times.

In the event a call is received, a return call is to be made within fifteen (15) minutes and physical response (if required) within thirty (30) minutes. Calls received from a facility (e.g. treatment plant or hydroelectric plant) should receive a physical response within thirty (30) minutes. Employees with weekend on-call responsibility shall maintain the ability to respond within the above-mentioned time, unless the employee's supervisor has authorized alternate coverage. On-call personnel shall have a pager at all times to be ready to respond to calls. However, on-call personnel are not required to maintain

any particular schedule and are free to come and go as they please and may engage in their normal social functions with the stipulation that they shall not consume alcohol or drugs (including marijuana/cannabis) to the point of impairment that would preclude legal driving or otherwise indulge in any activities that will inhibit their ability to respond to calls.

Failure of an employee to respond to a call when assigned on-call duty without properly notifying his or her supervisor of inability to respond due to sickness or injury may result in disciplinary action. Due to the critical nature of the District's ability to respond to emergency situations, employees, who are unable to provide an on-call response due to sickness or injury, may be required to provide a physician's statement.

A request for vacation or other time off that coincides with an employee's on-call period will be denied unless the employee has made arrangements for coverage of his or her on-call period.

2.4.2 On-Call Compensation

Employees assigned to on-call duty will receive on-call pay for the period they are on-call. Effective the first full pay period after April 4, 2024, Employees shall be compensated for on-call duty at the rate of Fifty Dollars (\$50.00) per day for all weekdays, and at the rate of Seventy-Five (\$75.00) for each weekend day or holiday. This pay represents twenty-four (24) hours of on-call duty.

In addition, employees will be compensated at the appropriate rate of pay for a physical response while on on-call duty ("Call Out Pay"). A physical response is defined as reporting to work outside of normal business hours to the location of the incident. Call Out Pay will be for the actual time worked responding to the call. In addition, if an employee on on-call duty is called to active duty, he or she shall be paid at the overtime rate for the time actually worked. Employees who troubleshoot a problem remotely, not requiring a physical response to the problem site, shall be provided one (1) hour of work or pay, if the employee works for at least thirty (30) minutes.

2.4.3 Rest Periods

An employee, who is called back to work after his or her regular shift ends, including weekend callouts, shall be paid at time and one half (1.5) of his or her regular rate of pay for the hours worked after his or her regular shift ends and before his or her regular shift begins the next day.

If an employee is called back to work after his or her regular shift ends, the employee is entitled to at least eight (8) hours of unpaid rest time without losing the overtime rate of pay from the call-back hours worked. Subject to the exceptions below, an employee must report back to work by the ninth (9th) hour following the end of his or her call-back shift.

In lieu of unpaid rest time, an employee may elect to use any accrued, unused vacation time, for his or her eight (8) hour rest period.

After the employee's unpaid rest time, the employee must either:

- A) Report back to work to complete any remaining hours worked on his or her regular schedule; or
- B) Report back to work at the start of their next regularly scheduled shift, provided that his or her regular shift has ended upon the expiration of the ninth (9th) hour following the end of his or her call-back shift. (See examples below).

When the employee returns to work, any hours remaining on his or her regular shift will be paid at the employee's regular rate of pay of the hours actually worked.

EXAMPLE A: An employee works his or her regular work shift of 7:00a.m. to 3:30 p.m. on Tuesday. The employee is called back to work at midnight and works until 2:00 a.m. on Wednesday morning. The employee is compensated at the rate of time and one-half (1.5) for the hours worked from midnight until 2:00 a.m. (2 hours). The employee may take his or her rest time either unpaid or may use unused, accrued vacation leave, which shall take place from 2:00 a.m. until 10:00 a.m. The employee is then expected to return to work at 11:00 a.m., which is nine (9) hours after his or her call-back shift has ended. He or she shall then be paid from 11:00 a.m. to 3:30 p.m. at his or her regular rate of pay.

EXAMPLE B: An employee works his or her regular work shift from 7:00 a.m. to 3:30 p.m. on Tuesday. The employee is called back to work at 1:00 a.m. and works until 7:00 a.m. on Wednesday morning. The employee is compensated at the rate of time and one half (1.5) for the hours worked from 1:00 a.m. to 7:00 a.m. (6 hours). The employee may take his or her rest time either unpaid or may use unused, accrued vacation leave, which shall take place from 7:00 a.m. until 3:00 pm. Since the employee is expected to return to work at 4:00 p.m., thirty minutes after his or her shift has ended, the employee is required to report into work at 7:00 a.m. on Thursday morning, and will not be expected to work his or her regular shift on Wednesday.

EXAMPLE C: An employee works his or her regular work shift from 7:00 a.m. to 3:30 p.m. on Tuesday. The employee is called back to work at 1:00 a.m. and works until 9:00 a.m. on Wednesday morning. The employee is compensated at the rate of time and one half (1.5) for the hours worked from 1:00 a.m. to 7:00 a.m. (6 hours). The employee is compensated at his or her regular rate of pay from 7:00 a.m. to 9:00 a.m. The employee will be allocated a rest period, either by using unused, accrued vacation leave, or take it unpaid from 9:00 a.m. to 6:00 p.m. Since the employee is expected to

return to work at 6:00 p.m., two and a half hours after his or her shift has ended, the employee is required to report into work at 7:00 a.m. on Thursday morning, and will not be expected to work his or her regular shift on Wednesday.

2.5 MEAL PERIODS

Field personnel will be allowed a thirty (30) minute lunch period. Employees may be subject to discipline if he or she returns from his or her lunch period late. In his or her discretion, the General Manager may extend the meal period and adjust the workday accordingly. Combining meal periods, "banking" meal periods from day-to-day, saving meal periods to shorten workdays or requesting compensatory time or overtime for work performed during meal periods shall not be allowed unless specifically authorized in writing.

Employees covered by this MOU shall not use a company vehicle to transport themselves to an offsite location for lunch without prior written permission from the General Manager or Supervisor. If lunch is desired in a location other than the work site, the employee shall provide his or her own transportation or get prior written permission from the General Manager or his or her Supervisor.

Absent a change from a supervisor, the lunch period shall be from 12:00 to 12:30 PM. Employees shall attend to any personal hygiene needs during their lunch period.

- G. Last Chance Agreement: In lieu of discharge, the District and Local 39 may agree to enter into a "Last Chance Agreement", whereby the employee will remain employed with the District, but may be discharged at a later date for violating the District's policies or this Memorandum of Understanding. Additionally, the employee agrees to waive his or her rights to challenge his or her termination in exchange for entering into a Last Chance Agreement and remaining employed

7.4 DISCIPLINARY NOTICE/APPEAL PROCEDURE

This Section does not apply to probationary (including employees on disciplinary or promotional probation) or temporary employees.

7.4.1 Written Notice of Proposed Action

In the event the District imposes disciplinary action as described in section 7.3, subsections C-G, the employee will be given a notice of the disciplinary action.

Notice of the Disciplinary Action

Prior to the imposition of discipline as described in section 7.3, subsections C-G, a regular employee shall be provided a written notice or "Skelly letter" by the employee's supervisor (the Operations Manager or the Water Quality Manager) proposing to implement discipline which contains:

1. Notice of the proposed action;
2. The reasons for the proposed action;
3. A copy of the charges and any materials upon which the proposed action is based;
4. Notice that the employee is entitled to an opportunity to respond within five (5) working days after the notice has been served upon employee to the charges orally or in writing, or both, personally or with a representative who may be an attorney;
5. The date and time of the response or "Skelly" meeting, which shall be held according to section 7.4.2;
6. Notice that if the employee fails to attend the response meeting the employee shall be deemed to have waived all rights to said meeting and from appeal to any action taken.

7.4.2 Response Meeting/Skelly Review Meeting

No more than ten (10) business days after the notice has been served upon employee, employee shall have the opportunity to refute charges or present facts that is known as a "Skelly" Review meeting with the General Manager. The employee may respond orally or in writing, personally or with a representative. Neither party shall be entitled to call witnesses or take testimony.

If an employee fails to respond to the notice for a Skelly Review meeting, the General Manager or his or her designee shall notify the employee in writing that his or her time to respond has expired, and that the discipline shall be imposed.

If the employee requests a Skelly Review meeting, the General Manager shall consider information contained in the charges and recommendations, as well as information presented by the employee or his or her representative and issue a Final Notice as set forth in Section 7.4.3.

7.4.3 Post-Skelly Final Notice

Within ten (10) days after the Skelly Review meeting, the General Manager or his or her designee shall: 1) dismiss the notice and take no disciplinary action against the employee; 2) issue disciplinary action that is less severe than the intended disciplinary action; or 3) prepare and serve upon the employee a final notice of disciplinary action.

The final notice of disciplinary action shall include the following:

1. The disciplinary action taken;
2. The effective date of the disciplinary action taken;
3. Specific charges upon which the action is based;
4. A summary of the facts upon which the charges are based;
5. The written materials, reports and documents upon which the disciplinary action is based; and
6. The employee's right to appeal.

Disciplinary action other than a suspension, demotion or termination (i.e., written or oral reprimands) shall not be subject to appeal. Disciplinary action consisting of a suspension, demotion or termination may be appealed by regular employees pursuant to Sections 7.4.4 and 7.4.6.

7.4.4 Appeals of Disciplinary Action

Any regular employee shall have the right to appeal the General Manager's decision to a neutral hearing officer from any disciplinary action taken following a Skelly hearing. Such appeal shall be in writing and must be filed with the General Manager within ten (10) business days after receipt of written notice of such disciplinary action. Failure to file an appeal within such period constitutes a waiver of right to appeal.

The appeal hearing shall be an evidentiary hearing with due process rights including the right to present witnesses, present evidence, cross examine opposing witnesses, the right to counsel and findings to support the decision. However, the formal rules of evidence shall not apply, and the hearing officer shall be entitled to rely upon any evidence that reasonable persons would commonly rely upon in the course of the conduct of their business.

The hearing officer shall conduct an appeal within thirty (30) days of receipt of employee's request for appeal or as soon as practical. The parties may continue the hearing either for the convenience of the District or for good

cause upon written application of the appellant or District, for a period not to exceed an additional thirty (30) days from the receipt of the appeal. Written notice of the time and place of the hearing shall be conducted in accordance with the provisions of Section 11509 of the Government Code of the State of California, except that the appellant and other persons may be examined as provided in Section 19580 of said Government Code, and the parties may submit all proper and competent evidence against, or in support of the causes.

Neither the provisions of this section or this Chapter shall apply to reductions in force or reductions in pay, which are part of a general plan to reduce or adjust salaries and wages. However, any non-disciplinary reduction in pay is subject to the meet and confer process pursuant to Government Code sections 3504.5 and 3505.

7.4.5 Selection of Hearing Officer for Appeal of Disciplinary Action

Upon receipt of a disciplinary appeal hearing request by Local 39, the General Manager or his or her designee shall order that the matter be heard by a neutral hearing officer selected from a listing of arbitrators supplied by the State Conciliation Service. The individual shall be selected from a listing of five (5) individuals identified by the State Conciliation Service. If the parties cannot mutually agree upon a hearing officer, the hearing officer shall be selected by the parties through alternate the striking of names. The cost of the hearing officer will be shared equally between the parties.

7.4.6 Appeal Hearing

The appointed hearing officer shall conduct an appeal within thirty (30) days of receipt of employee's request for appeal. The appointed hearing officer may continue the hearing either for the convenience of the District or for good cause upon written application of the appellant or District, for a period not to exceed an additional thirty (30) days from the receipt of the appeal. Written notice of the time and place of the hearing shall be conducted in accordance with the provisions of Section 11509 of the Government Code of the State of California, except that the appellant and other persons may be examined as provided in Section 19580 of said Government Code, and the parties may submit all proper and competent evidence against, or in support of the causes.

7.4.7 Representation at Appeal

Any District employee other than those appointed to supervisory, management, and confidential classifications shall be permitted to represent another District employee or group of District employees at the hearing of the appeal. The appellant may appear in person and/or be represented by counsel and/or a union representative.

7.4.8 Notices to Witnesses

Witnesses shall suffer no loss of compensation or benefits while participating in this procedure, in order to give testimony before the neutral hearing officer. Recognizing the District's need to provide continuity of services to the public, the union shall provide a list of required witnesses in advance of any scheduled hearing and shall ensure that the number of witnesses and their scheduling shall be reasonable.

7.4.9 Failure of Employee to Appear at Appeal Hearing

Failure of the appellant to appear at the hearing, without the prior written approval of the General Manager or hearing officer, shall be deemed a withdrawal of his or her appeal and the action in the Final Notice shall be final.

7.4.10 Decision on the Appeal

The hearing officer shall render a written decision within thirty (30) days after concluding the hearing or as soon as practical. The hearing officer's decision shall be final and binding.

7.4.11 Time Limits

In the event of extenuating circumstances, the time limits in this Section 7.4 may be extended to a definite date by written agreement between the employee and the District.

CHAPTER 8: MISCELLANEOUS ISSUES

8.1 SUBSTANCE ABUSE AND FITNESS FOR DUTY POLICY

The "Alcohol and Drug-Free Workplace Policy" shall be incorporate by reference as a provision of this Agreement. A copy is attached to this Agreement as **Attachment B**.

8.2 UNLAWFUL HARASSMENT POLICY

Policy Statement - It is legally mandated by State and Federal laws that employees have a right to work in an environment that is free from all forms of discrimination, and harassment, including sexual harassment. The District will tolerate neither harassment nor sexual harassment. Sexual harassment is a form of discrimination that is prohibited by Title VII of the Civil Rights Act of 1964 and California Government Code Section

12940. Sexual harassment is a costly form of discrimination that can result in expensive litigation that may result in back pay or punitive damage awards, withdrawal of Federal support funds and/ or other adverse actions. District employees have a grave responsibility for maintaining high standards of honesty, integrity, impartiality, and conduct to assure proper performance of the District's business and the maintenance of confidence of the people it serves. It will, therefore, be a violation of District policy for any employee to engage in any of the acts or behaviors set forth in the District Harassment Policy or in violation of any laws thereon.

8.3 DISTRICT VEHICLES

District vehicles are to be used only for authorized business and are to be operated by authorized personnel. Unauthorized persons (i.e. spouses, children etc.) are not permitted in District vehicles. District vehicles are to be picked up and left off at the District yard each working day. District vehicles will not be taken home, except as noted below.

Employees subject to 24-hour maintenance calls are authorized to drive District vehicles home. The possession of alcoholic beverages, marijuana or unlawful substances of any kind are not permitted inside a District vehicle. Employees shall not smoke or use any marijuana products in District vehicles. As the use of a District vehicle in and out of working hours is subject to public scrutiny, all employees should drive with courtesy and safety at all times.

Possession of a valid California Driver's License and a satisfactory driving record to maintain insurability is required for all personnel operating District vehicles.

The District participates in the Department of Transportation (D.O.T.) Employee Pull Notice Program. Management will review records for anyone operating District vehicles.

Employees seeking a variance from this policy must receive a variance in writing from the General Manager or Board of Directors prior to using District vehicles in a manner other than specified in the policy.

8.4 HIRING EMPLOYEES

New Employees - Medical Examination Policy - The District, in conjunction with the District's Worker's Compensation Administrator, shall establish a medical exam procedure for new and prospective employees.

Introductory Period - The Introductory / Probationary Period for newly hired appointees to a

regular position is twelve (12) months. This is the time-limited period of paid service, which is an extension of the examination process. It is intended to give new full-time and part-time appointees the opportunity to demonstrate their ability to achieve a satisfactory level of performance and to determine whether the new position meets their expectations. Like all at-will employees, during the introductory period an employee may be dismissed at any time without prior notice and without cause.

8.5 PEACEFUL PERFORMANCE

The District and the Union recognize and acknowledge that the work performed by bargaining unit members in providing a clean, safe, reliable water supply to the Georgetown Divide is essential to the public safety, health and general welfare of the community. Neither the Union nor any steward, agent or employee will instigate, promote, sponsor, engage in or condone any strike, sympathy strike, secondary boycott, slowdown, speed-up, sit-down, concerted stoppage of work, concerted refusal to perform overtime, mass absenteeism, or any other intentional interruption or disruption of the operation of the District, regardless of the reason for so doing. The District shall not be required to meet and confer or negotiate on the merits of any dispute that may have given rise to an unlawful work stoppage until said work stoppage has ceased. Violation of this article shall be grounds for disciplinary action up to and including termination of employment. Each employee who holds the position of steward of the Union occupies a position of special trust and responsibility in maintaining and bringing about compliance with the provisions of this Section. In addition, in the event of a violation of this Section the Union agrees to inform its members of their obligations under this Agreement and to direct them to return to work.

8.6 ORDER OF LAYOFF

In the event a layoff is necessary, the General Manager, with the approval of the Board of Directors, shall determine which classification(s) will be affected. Flexibly staffed positions (I's and II's) will be treated as one classification for the purpose of this provision. Prior to the layoff of permanent employees, notice of release of employment shall first be given to employees in the following order by class or classes: extra help, provisional and probationary employees in the targeted classifications. The following sequence will be used to determine the order in which permanent employees in the targeted classifications will be laid off.

1. Permanent employees whose last recorded overall performance rating was "unacceptable" in the performance evaluation done ninety (90) days or more prior to the notice of layoff.
2. Permanent employees shall be laid off, by class, in the inverse order of seniority within classification within a department. Permanent part-time employees' seniority will be prorated based on hours worked.
3. Employees who voluntarily demote to a lower classification (not as part of a layoff and the layoff process) shall have their hours of service in the higher classification transferred to the lower classification for the purpose of

calculating seniority for layoff purposes only.

4. The least senior employee may choose to "bump" to any class with the same or lower maximum salary in which the employee had previously served in a permanent status.
5. Ties. In the event of a tie in seniority the final decision will be made by lot.

8.7 Global Positioning System (GPS)

For District vehicles in which a Fleet Management Global Positioning System (GPS) has been installed, the following will apply:

1. The purpose of the District's Fleet Management GPS is to record daily and annual miles per vehicle. This information will be used to manage vehicle maintenance, project fuel costs, and determine the infrastructure that will be required to sustain the electrification of all District vehicles as mandated by State of California regulations. In addition to any uses described elsewhere in this Section, the GPS capabilities may also be used for other business-related purposes, including, but not limited to, metrics, performance measures, locating stolen vehicles, determining the location of vehicles during work shifts, providing aid to vehicles with mechanical failures, increasing employee safety, and managing agency resources effectively.
2. The Fleet Management GPS will provide increased employee safety, especially for those employees who drive alone in a District vehicle.
3. Upon reasonable suspicion by District management that employee(s) is/are performing misconduct of any kind, or in violation of District directives or personnel policies, the Fleet Management GPS may be used as a tool to monitor the work activities of such employee(s). However, such monitoring shall last for a period not to exceed ninety (90) days.
4. Historical data contained within the Fleet Management System shall be maintained in accordance with the District's record retention policy.
5. In addition to the above-mentioned uses, GPS data may be used as part of an accident investigation or in response to a citizen's complaint.
6. The District may use GPS data, so acquired based upon underlying reasonable suspicion as set forth in subsection 3 above, during a disciplinary investigation or discipline of its employees pertaining to the misuse or abuse of their vehicles, the appropriate use of time, or other misconduct or violation of District directives or personnel policies.
7. Employees are prohibited from tampering with, altering or attempting to alter, disabling, or destroying any Fleet Management GPS system or GPS data.

Access to information from the Fleet Management GPS shall be limited to those departments and programs with a well-defined business need, such as Financial Services for budgeting and infrastructure planning, Field Services for vehicle maintenance, and Risk Management for accident investigations and responses to vehicle complaints from the public. Human Resources or other authorized management employees may access the data, pursuant

to subsection 3 above, as part of an inquiry into employee misconduct. A supervisor or manager may access vehicle location data when there is concern for an employee's well-being and safety.

GEORGETOWN DIVIDE PUBLIC UTILITY DISTRICT ALCOHOL AND DRUG-FREE WORKPLACE POLICY

The purpose of this Alcohol and Drug-Free Workplace Policy ("Policy") is to assure worker fitness for duty and to protect our employees, passengers and the public from risks posed by the use of alcohol and controlled substances. This Policy is also intended to comply with all applicable State and Federal regulations governing workplace anti-drug programs in the transportation industry.

The Georgetown Divide Public Utility District ("District") recognizes that the use of alcohol or controlled substances in the workplace is not conducive to safe working conditions. In order to promote a safe, healthy and productive work environment for all employees, it is the objective of the District to have a work-force that is free from the influence of alcohol and controlled substances.

A. APPLICABILITY

This Policy applies to all employees, volunteers, and interns when they are on District property or when performing any District-related business. It applies to off-site lunch periods and breaks when an employee is scheduled to return to work. It also applies to those employees on stand-by duty. Visitors, vendors, and contracted employees are governed by this Policy while on District premises, and they will not be permitted to conduct business if found to be in violation of this Policy.

A listing of the District's classifications, including safety-sensitive (function and/or position) classifications covered by this Policy can be found in Appendix "A" of this Policy. A safety-sensitive employee is considered to be performing a safety-sensitive function during any period in which that employee is actually performing, ready to perform, or immediately available to perform any safety-sensitive functions.

B. PROHIBITED SUBSTANCES

"Prohibited Substances" addressed by this policy include the following:

1. Illegal Drugs

Illegal drugs means a controlled substance, as defined in Schedules I through V of Section 202 of the Controlled Substances Act, 21 U.S. C. § 812, which includes, but are not limited to the following:

Amphetamines, barbiturates, benzodiazepines, cocaine, marijuana, methadone, methaqualone, opiates, phencyclidine ("PCP").

2. Legal Drugs

Use of any legal drug (a) for any purposes other than the purposes for which it was prescribed or manufactured or in a quantity, frequency, or (b) in a manner that is contrary to the instructions or recommendations of the prescribing physician or manufacturer. Use or possession of marijuana/cannabis during working hours and being impaired by the psychoactive properties of marijuana/cannabis during working hours.

3. Alcohol

Use of beverages or substances, including any medication, containing alcohol such that it is present in the body at a level in excess of that stated in Department of Transportation guidelines while actually performing, ready to perform, or immediately available to perform any District business is prohibited.

"Alcohol" is defined as: the intoxicating agent in beverage alcohol, ethyl alcohol, or other low molecular weight alcohol, including methyl or isopropyl alcohol.

C. PROHIBITED CONDUCT

1. Manufacture, Trafficking, Possession, and Use

Any District employee engaging in the unlawful manufacture, distribution, dispensing, possession or use of a Prohibited Substance on District premises, in District vehicles or while conducting District business off the premises is absolutely prohibited.

A violation of this Policy will result in disciplinary action pursuant to the District's Personnel Rules. For employees in a safety-sensitive position, a violation will result in removal from safety-sensitive duty and referral to a Substance Abuse Professional ("SAP"), as described in Section G of this Policy.

2. Impaired/Not Fit for Duty

Any District employee, who is reasonably suspected of being impaired, under the influence of a Prohibited Substance, or is not fit for duty shall be removed from his or her job duties and be required to undergo a reasonable suspicion controlled substance or alcohol test as outlined in Appendix "B" of this Policy.

Employees failing to pass this reasonable suspicion test shall remain off duty and be referred to a SAP. A controlled substance or alcohol test is considered positive (failed) if the individual is found to have a quantifiable presence of a Prohibited Substance in the body above the minimum thresholds defined in the Department of Transportation guidelines, or if the employee refuses to submit to the reasonable suspicion testing.

3. Alcohol Use

No District employee may report for duty or remain on duty when his or her ability to perform assigned functions is adversely affected by alcohol or when his or her breath alcohol concentration is 0.04 or greater. No District employee shall use alcohol while on duty or while performing safety-sensitive functions. Any violation of this Policy may be subject to discipline under the District's Personnel Rules.

No safety-sensitive employee shall use alcohol within four (4) hours of reporting for duty nor during hours that he or she is on call. Violation of this provision is prohibited and will subject the employee to removal from safety-sensitive duty and referral to a SAP.

D. NOTIFYING THE DISTRICT OF CRIMINAL DRUG CONVICTION

Pursuant to 41 U.S.C.A. § 8103, any employee who fails to notify the District of any criminal controlled substance-related statute conviction shall be subject to disciplinary action under the District's Personnel Rules, which may include termination of employment. Employees must notify the District of any criminal controlled substance-related statute conviction no later than five (5) days after the conviction.

E. PROPER APPLICATION OF THE POLICY

The District is dedicated to assuring fair and equitable application of this Policy. Therefore, supervisors are required to administer all aspects of the Policy in an unbiased and impartial manner. Any supervisor who knowingly disregards the requirements of this Policy, or who is found to deliberately misuse the Policy with respect to his or her subordinates shall be subject to disciplinary action under the District's Personnel Rules, which may include termination of employment.

F. TESTING FOR PROHIBITED SUBSTANCES

1. Compliance with Testing Requirements

All safety-sensitive employees, listed in Appendix "A", are subject to pre-employment, reasonable suspicion testing, and post-accident controlled substance testing and breath alcohol testing. Employees, who are in possession of a commercial driver's license are also subject to random drug testing, in addition to the testing mention above. All other District employees are subject to pre-employment testing, reasonable suspicion testing and post-accident testing controlled substance testing and breath alcohol testing.

Any District employee who refuses to comply with a request for testing, who provides false information in connection with a test, or who attempts to falsify test results through tampering, contamination, adulteration, or substitution shall be removed from duty immediately and be referred to a SAP. Refusal to submit to a test can include an

inability or refusal to provide a urine specimen or breath sample without a valid medical explanation, as well as a verbal declaration, obstructive behavior or physical absence resulting in the inability to conduct the test.

2. Testing Procedures

The District will refer the applicant or employee to an independent, National Institute on Drug Abuse ("NIDA") certified medical clinic or laboratory, which will administer the test. The District will pay the cost of the test. If the employee is determined by verifiable and confirmed, reasonable suspicion observation as unable to drive or impaired for driving, then a District supervisor will transport the individual to a medical facility for immediate testing.

Detailed procedures pertaining to each type of testing is outlined in Appendix "B" of this Policy.

3. Types of Testing-All District Employees

All District employees may be tested under any of the following circumstances:

a. Pre-Employment Testing

All applicants for District classifications shall undergo controlled substance testing prior to employment. Receipt of satisfactory test results is required prior to employment and failure of a controlled substance test will disqualify the applicant from further consideration for employment.

b. Reasonable Suspicion Testing

All District employees will be subject to Prohibited Substance testing when there is a reason to believe that Prohibited Substance use is adversely affecting job performance. A reasonable suspicion referral for testing will be made on the basis of documented objective facts and circumstances, which are consistent with the effects of Prohibited Substance abuse. Examples of reasonable suspicion include, but are not limited to, the following:

1. Adequate documentation of unsatisfactory work performance or on-the-job behavior.
2. Physical signs and symptoms consistent with prohibited substance use.
3. Occurrence of a serious or potentially serious accident that may have been caused by human error.
4. Fights (to mean physical contact), assaults and flagrant disregard or violations of established safety, security, or other operation procedures.

Reasonable suspicion determinations will be made by a supervisor, who is trained to detect the signs and symptoms of Prohibited Substance use, and who reasonably concludes that an employee may be adversely affected or impaired in his or her work performance due to Prohibited Substance abuse or misuse. Supervisors should use the form attached to this Policy as Appendix "C" to determine whether there is a verifiable and confirmed reasonable suspicion observation.

c. Post-Accident Testing

All District employees will be required to undergo Prohibited Substance testing if they are involved in an accident with a District vehicle that results in personal injury to an employee or others, which require first aid or medical attention or if there is damage to District property. This includes all employees who are on duty in the vehicles and any other whose performance could have contributed to the accident.

Following an accident, the employee will be tested as soon as possible, but not to exceed eight (8) hours for alcohol testing and thirty-two (32) hours for controlled substance testing. If an alcohol test is not administered within two (2) hours following the accident, the District shall prepare and maintain a record stating the reasons the test was not promptly administered. Further, if an alcohol test is not administered within eight (8) hours or a controlled substance test is not administered within thirty-two (32) hours following the accident, the District shall cease attempts to administer testing and shall prepare and maintain a written record.

Any safety-sensitive employee, who leaves the scene of an accident without appropriate authorization prior to submission to Prohibited Substance testing, will be considered to have refused the test and subject to discipline, up to and including termination. That being said, the testing requirement should not be construed to require the delay of necessary medical attention for injured people following an accident or to prohibit a safety-sensitive employee from leaving the scene of an accident for the period necessary to obtain assistance in responding to the accident, or to obtain necessary emergency medical care. Furthermore, the results of a breath alcohol, a blood alcohol or a urine controlled substance test conducted by Federal, State, or local officials having independent authority for the test, shall be considered valid, provided those tests conform to the applicable Federal, State or local testing requirements, and that the results of the tests are obtained by the District.

d. Return-to-Duty Testing

All employees who previously tested positive on a Prohibited Substance test must test negative and be evaluated and released to duty by the SAP before returning to duty. Employees will be required to undergo unannounced follow-up Prohibited Substance testing following returning to duty. The duration and frequency will be determined by the SAP. However, it shall not be less than six (6) tests during the first twelve (12) months, nor longer than sixty (60) months in total, following return to duty.

e. Employee Requested Testing

Any employee, who questions the result of a required controlled substance test under Department of Transportation guidelines, may request that an additional test be conducted. This additional test may be conducted at the same laboratory or at a different Department of Health and Human Services ("DHHS") certified laboratory. The test must be conducted on the split sample that was provided at the same time as the original sample. All costs for such testing are to be paid by the employee unless the second test invalidated the original test. The method of collecting, storing, and testing the split sample will be consistent with the procedures set forth in the Department of Transportation guidelines. The employee's request for a retest must be made to the Medical Review Officer within seventy-two (72) hours of notice of the initial test result.

Requests after seventy-two (72) hours will only be accepted if the delay was due to documentable facts that were beyond the control of the employee.

4. Types of Testing-Employees with Commercial Driver's License

In addition to pre-employment testing, reasonable suspicion testing, post-accident testing, return to duty testing, and employee-requested testing, employees, who are in possession of a commercial driver's license are subject to random testing.

a. Random Testing

Employees in possession of a commercial driver's license will be subjected to randomly selected, unannounced testing. The random selection will be by a scientifically valid method. Each employee in possession of a commercial driver's license will have an equal chance of being tested each time selections are made. These eligible employees will be tested either just before departure, during duty, or just after the eligible employee has ceased performing his or her duty.

5. Treatment/Rehabilitation Program

An employee with a Prohibited Substance problem will be afforded an opportunity for treatment. Participants in the rehabilitation program may use accumulated sick leave, vacation and floating holidays, if any. Treatment for District employees will be in accordance with the following provisions:

a. Positive Controlled Substance and/or Alcohol Test

A Rehabilitation Program is available for District employees, who have tested positive for a Prohibited Substance on a one-time basis only. Employee will be immediately terminated on the occurrence of a second verified positive test result. **Program costs and subsequent controlled substance or alcohol testing costs will be paid by the employee.**

When recommended by the SAP, participation and completion of the rehabilitation program is mandatory. Failure of an employee in possession of a commercial driver's license to attend or complete a prescribed program will result in termination from employment.

Prior to return-to-duty testing, an employee must follow the rehabilitation program recommended by the SAP and agree to and sign a "Last Chance Agreement", whereby he or she agrees that if any future misconduct occurs because of controlled substance or alcohol abuse, or if the employee fails to complete the rehabilitation program, he or she will be subject to termination from employment. The duration and frequency of follow-up testing will be determined by the SAP but will not be shorter than one year or longer than five years.

b. Voluntary Admittance:

All employees, who feel they have a problem with Prohibited Substances, may request voluntary admission to the rehabilitation program. Requests must be submitted to the General Manager or his or her designee for review. **Program costs and subsequent controlled substance and/or alcohol testing costs will be paid by the employee.**

Employee must agree to and sign a "Last Chance Agreement", whereby he or she agrees that if any future misconduct occurs as a result of Prohibited Substance abuse, or if the employee fails to complete the rehabilitation program, he or she will be subject to termination from employment. Additionally, upon completion of a rehabilitation program, employee must pass a return-to-duty controlled substance and/or alcohol test and be subject to unannounced follow-up testing for thirty-six (36) months following return to duty. A positive result on the return-to-duty test or on the unannounced follow-up tests within a thirty-six (36) month period will result in termination from employment.

6. Confidentiality and Privacy

All Prohibited Substance test results are reported to the General Manager and will remain and be considered confidential. Results will only be disclosed within the District on a need-to-know basis and as allowed by law.

The Prohibited Substance test results will be retained in a secure location. Information about an employee's medical condition or history obtained in connection with a Prohibited Substance test will be kept in a file separate and apart from the employee's personnel file. The release of an individual's Prohibited Substance test results and other information gained in the testing process will only be otherwise disclosed in accordance with an employee's written authorization or as otherwise required or permitted by applicable law. For example, test results and other information obtained in the testing process may be used and disclosed in litigation (e.g., arbitration, administrative hearings or judicial proceedings) if the information is relevant to the hearing or proceeding, to any government agency to the

extent required by law, rule or regulation, or to a substance abuse or rehabilitation assessment/treatment facility or provider for the purpose of evaluation/assessment or treatment.

The District will attempt to ensure that all aspects of the testing process, including specimen or sample collection, are as private and confidential as reasonably practical.

G. EMPLOYEE ASSESSMENT BY A SUBSTANCE ABUSE PROFESSIONAL

Any District employee, who tests positive for the presence of a Prohibited Substance or whose breath alcohol concentration is above the minimum thresholds set forth in the Department of Transportation guidelines, will be assessed by a SAP. A SAP is a licensed physician, psychologist, social worker, employee assistance professional, or addiction counselor with knowledge of and clinical experience in the diagnosis and treatment of alcohol or controlled substance-related disorders. The SAP will evaluate each employee to determine what assistance, if any, the employee needs in resolving problems associated with prohibited substance abuse or misuse.

If a District employee is returned to duty following rehabilitation, he or she must agree to and sign a "Last Chance Agreement", pass a return-to-duty controlled substance and/or alcohol test and be subject to unannounced follow-up tests for a period of one to five (5) years, as determined by the SAP. **The cost of any rehabilitation and subsequent controlled substance or alcohol testing is borne by the employee and is on a one-time basis only. Employee will be immediately terminated on the occurrence of a second verified positive test result.**

H. CONTACT PERSON

APPENDIX "B"
PROCEDURES
for
THE GEORGETOWN DIVIDE PUBLIC UTILITY DISTRICT

A. PROCEDURES-REASONABLE SUSPICION TESTING

1. An employee who may possibly be under the influence of a Prohibited Substance is observed by a supervisor.
2. Any employee may identify someone suspected of being under the influence of a Prohibited Substance to any supervisor. Employees should realize, however, that it is a violation of the District's Personnel Rules to make false or malicious statements about other employees and doing so can result in disciplinary action, up to and including termination, being taken against the offending employee. However, the supervisor must witness firsthand the employee's signs and symptoms.
3. The supervisor is then obligated to ensure that the matter is immediately investigated. If possible, two (2) supervisors determine (independently or together) that the employee in question may indeed be under the influence of a Prohibited Substance. The supervisor shall fill out the "Reasonable Suspicion" form to document his or her reasonable suspicions.
4. When the supervisor(s) suspect and believe that the employee may be under the influence of a Prohibited Substance, the employee is then immediately suspended from duty (with pay) and driven by District staff (or others designated) to the District specified collection site. Because of a testing facility requirement, the employee in question must show proof of identification, such as a photo driver's license or state-issued photo identification card.
5. Whenever practical, the General Manager should be notified in advance of the employee being taken to the collection site.
6. At the collection site, the employee will be required to submit a urine sample in the event that controlled substances are suspected or a breath sample in the event that alcohol intoxication is suspected to the on-duty technician. Care will be taken to provide the employee with maximum privacy without compromising the integrity of the sample.

7. The District will take precautions to prevent the employee being tested from going back to work and driving their own car home. Instead, the employee will be given assistance in obtaining a ride home from the collection site.
8. The employee whose test results are negative (less than 0.02 alcohol concentration) will be reinstated. The employee whose confirmation test results indicate an alcohol concentration greater than 0.02 but less than 0.04, will not be permitted to return to duty for twenty-four (24) hours after administration of the test. The employee whose confirmation test result indicates an alcohol concentration of 0.04 or greater for alcohol will be referred to a District specified outside SAP who will assess the employee's condition and make a recommendation for treatment which, if accepted by the District, must be followed by the employee. Failure to follow the accepted recommendations or refusal to submit to return-to-duty and unannounced follow-up testing will result in the employee's termination.
9. The employee whose controlled substance test results are verified negative will be reinstated. The employee whose controlled substance test is verified positive by the Medical Review Officer will be referred to a District specified outside SAP, who will assess the employee's condition and make a recommendation for treatment which, if accepted by the District, must be followed by the employee. Failure to follow the accepted recommendations or refusal to submit to return-to-duty and unannounced follow-up testing will result in the employee's termination.

B. PROCEDURES-RANDOM TESTING

1. The compliance company notifies the supervisor to send the eligible employee to the collection site for alcohol or controlled substance testing.
2. The supervisor notifies the eligible employee to go to the collection site for alcohol or controlled substance testing immediately. Because of a testing facility requirement, the eligible employee in question must have proof of identification, such as a photo driver's license or state-issued photo identification card.
3. At the collection site, the eligible employee will be required to submit a urine sample in the event that controlled substances are to be tested for, or a breath sample in the event that alcohol is being tested for to the on-duty technician. Care will be taken to provide the eligible employee with maximum privacy without compromising the integrity of the sample.
4. The eligible employee whose test results are negative (less than 0.02 alcohol concentration) will be reinstated. The eligible employee whose confirmation test results indicate an alcohol concentration greater than 0.02 but less than 0.04, will not be permitted to return to duty or perform a safety-sensitive function for twenty-

four (24) hours after administration of the test. The eligible employee whose confirmation test result indicates an alcohol concentration of 0.04 or greater for alcohol will be referred to a District specified outside SAP who will assess the eligible employee's condition and make a recommendation for treatment which, if accepted by the District, must be followed by the eligible employee. Failure to follow the accepted recommendations or refusal to submit to return-to-duty and unannounced follow-up testing will result in the eligible employee's termination.

5. The eligible employee whose controlled substance test results are verified negative will be reinstated. The eligible employee whose controlled substance test is verified positive by the Medical Review Officer will be referred to a District specified outside SAP who will assess the eligible employee's condition and make a recommendation for treatment which, if accepted by the District, must be followed by the eligible employee. Failure to follow the accepted recommendations or refusal to submit to return-to-duty and unannounced follow-up testing will result in the eligible employee's termination.

C. PROCEDURES-POST-ACCIDENT

1. The employee notifies a supervisor that an accident has occurred.
2. The supervisor determines that the circumstances of the accident warrant a post-accident test when an injury occurred as a result of the accident or District property was damaged. Thereafter, the supervisor directs the employee to immediately go to the collection site for alcohol and controlled substance testing. Because of a testing facility requirement, the employee in question must have proof of identification, such as a photo driver's license or state-issued photo identification card.
3. At the collection site, the employee will be required to submit a urine sample for controlled substances and a breath sample for alcohol testing to the on-duty technician. Care will be taken to provide the employee with maximum privacy without compromising the integrity of the sample.
4. The General Manager will be notified that an accident has occurred, and that the employee was instructed to go to the collection site.
5. The employee whose test results are negative (less than 0.02 alcohol concentration) will be reinstated. The employee whose confirmation test results indicate an alcohol concentration greater than 0.02 but less than 0.04, will not be permitted to return to duty for 24 hours after administration of the test. The employee whose confirmation test result indicates an alcohol concentration of 0.04 or greater for alcohol will be referred to a District specified outside SAP who will assess the employee's condition and make a recommendation for treatment which, if accepted

by the District, must be followed by the employee. Failure to follow the accepted recommendations or refusal to submit to return- to-duty and unannounced follow-up testing will result in the employee's termination.

6. The employee whose controlled substance test results are verified negative will be reinstated. The employee whose controlled substance test is verified positive by the Medical Review Officer will be referred to a District specified outside SAP, who will assess the employee's condition and make a recommendation for treatment which, if accepted by the District, must be followed by the employee. Failure to follow the accepted recommendations or refusal to submit to return-to-duty and unannounced follow-up testing will result in the employee's termination.

D. PROCEDURES -RETURN-TO-DUTY and FOLLOW-UP

1. The compliance company notifies the District to send the employee to the collection site for alcohol and controlled substance testing.
2. The supervisor notifies the employee to immediately go to the collection site for alcohol and controlled substance testing. Because of a testing facility requirement, the employee in question must have proof of identification, such as a photo driver's license or state- issued photo identification card.
3. At the collection site, the employee will be required to submit a urine sample for controlled substances and a breath sample for alcohol testing to the on-duty technician. Care will be taken to provide the employee with maximum privacy without compromising the integrity of the sample.
4. The employee whose confirmation test results indicate an alcohol concentration greater than 0.02 or whose controlled substance test is verified positive will be terminated.

E. PROCEDURES -CHAIN OF CUSTODY FOR CONTROLLED SUBSTANCE SPECIMENS

1. At the time a specimen is collected, the employee will be given a copy of the specimen collection procedures.
2. Urine will be in a wide-mouthed clinic specimen container, which will remain in full view of the employee until split, transferred to, sealed and initialed in two tamper-resistant urine bottles.
3. Immediately after the specimens are collected, the urine bottles will, in the presence of the employee, be labeled and then initialed by the employee. If the sample must be collected at the site other than the controlled substance and/or

alcohol testing laboratory, the specimens will then be placed in the transportation container. The container will be sealed in the employee's presence and the employee will be asked to initial or sign the container. The container will be sent to the designated testing laboratory on that day or the earliest business day by the fastest available method.

4. A chain of custody form will be completed by the on-duty technician during the specimen collection process and attached to and mailed with the specimen.

F. PROCEDURES -SPECIMEN COLLECTION OF STRANGE AND/OR UNRECOGNIZABLE SUBSTANCES

1. An employee is observed with a strange and/or unrecognizable substance.
2. The supervisor, in the presence of a witness, places the strange and/or unrecognizable substance into a clear plastic bag. The bag is sealed, labeled and signed by both the supervisor and a witness.
3. An incident report is made and signed by both the supervisor and a witness.
4. The plastic bag containing the specimen and a copy of the incident report is taken to the collection site for transportation to the laboratory for analysis.

G. PROCEDURES -ALCOHOL CONCENTRATION

1. The employee and the on-duty Breath Alcohol Technician ("BAT") complete the alcohol testing form to ensure that the results are properly recorded.
2. After an explanation of how the breathalyzer works, an initial breath sample is taken.
3. If the results of the initial test show an alcohol concentration of 0.02 or greater a second or confirmation test must be conducted. The confirmation test must not be conducted less than 15 minutes after, nor more than 30 minutes after the screening test.
4. The confirmation test will utilize Evidential Breath Testing devices that prints out the results, date and time, a sequential test number, and the name and serial number of the Evidential Breath Testing device to ensure the reliability of the results.

APPENDIX "F" DEFINITIONS

ACCIDENT -means an unintended happening or mishap where there is loss of human life (regardless of fault), bodily injury, significant property damage, or an injury as defined by Workers' Compensation Guidelines.

ALCOHOL -means the intoxicating agent in beverage alcohol, ethyl alcohol or other low molecular weight alcohol including methyl or isopropyl alcohol.

ALCOHOL CONCENTRATION -means the alcohol in a volume of breath expressed in terms of grams of alcohol per 210 liters of breath as indicated by an evidential breath test under this regulation. For example, 0.02 means 0.02 grams of alcohol in 210 liters of expired deep lung air.

ALCOHOL USE -means consumption of any beverage, mixture, or preparation, including any medication containing ethyl alcohol. Since ingestion of a given amount of alcohol produces the same alcohol concentration in an individual whether the alcohol comes from a mixed drink or cough syrup, the Department of Transportation prohibits the use of any substance containing alcohol, such as prescription or over-the-counter medication or liquor-filled chocolates.

Prescription medications containing alcohol may have a greater impairing affect due to the presence of other elements (e.g., antihistamines).

BREATH ALCOHOL TECHNICIAN ("BAT") -means a person trained to proficiency in the operation of the Evidential Breath Testing (EBT) device that the technician is using in the alcohol testing procedures. BATs are the only qualified personnel to administer the EBT tests.

CHAIN OF CUSTODY -means the procedures to account for the integrity of each urine specimen by tracking its handling and storage from point of collection to final disposition.

COLLECTION SITE -means a place designated by the District where individuals present themselves for the purpose of providing a specimen of either urine and/or breath.

COMMERCIAL MOTOR VEHICLE -means a motor vehicle, or combination of motor vehicles used in commerce to transport passengers or property if the motor vehicle: (1) has a gross combination weight rating of 26,001 or more pounds inclusive of a towed unit with a gross vehicle weight rating of more than 10,000 pounds; or (2) has a gross vehicle weight rating of 26,001 or more pounds; or (3) is designed to transport 16 or more passengers, including the driver; or (4) is of any size and is used in the transportation of materials found to be hazardous for the purposes of the Hazardous Materials Transportation Act and which require the motor vehicle to be placarded under the Hazardous Materials Regulations.

CONFIRMATION TEST -for alcohol testing means a second test, following a screening test with a result of 0.02 or greater that provides quantitative data of alcohol concentration. For

controlled substances testing this means a second analytical procedure to identify the presence of a specific drug or metabolite which is independent of the screen test and which uses a different technique and chemical principle from that of the screen test in order to ensure reliability and accuracy. (Gas chromatography/mass spectrometry (CG/MS) is the only authorized confirmation method of cocaine, marijuana, opiates, amphetamines, and phencyclidine.)

CONTROLLED SUBSTANCE (DRUG) TEST-A method of detecting and measuring the presence of alcohol and other controlled substances, whether legal or illegal, in a person's body. A controlled substance test may be either an initial test or confirmation test. An initial controlled substance test is designed to identify specimens having concentrations of a particular class of drug above a specified concentration level. It eliminates negative specimens from further consideration.

Controlled substances will be tested under the Department of Health and Human Services guidelines. **The primary (initial or screening) controlled substance test thresholds for a verified positive test result for a safety-sensitive employee are those that are equal to or greater than:**

Amphetamines 1000 ng/ml Cocaine Metabolites 300 ng/ml Marijuana Metabolites 50 ng/ml
Opiates Metabolites 2000 ng/ml Phencyclidine (PCP) 25 ng/ml

The primary (initial or screening) controlled substance test thresholds for a verified positive test result for a non safety-sensitive employee or a safety-sensitive employee tested under District authority are those that are equal to or greater than:

Amphetamines 1000 ng/ml
Barbiturates 300 ng/ml
Benzodiazepines 300 ng/ml Cocaine Metabolites 300 ng/ml Marijuana Metabolites 50 ng/ml
Methadone 300 ng/ml
Methaqualone 300 ng/ml
Opiates 2000 ng/ml
Phencyclidine 25 ng/ml
Propoxyphene 300 ng/ml

A confirmation drug testing is a second analytical procedure to detect the presence of a specific drug or its metabolite. The confirmation procedure is conducted independent of the initial test and uses a different technique and chemical principle in order to confirm reliability and accuracy. **The confirmatory controlled substance test thresholds for a verified positive test result for a safety-sensitive employee are those that are equal to or greater than:**

Amphetamines Amphetamine 500 ng/ml
Methamphetamine (1) 500 ng/ml

Cocaine Metabolite (2) 150 ng/ml
Marijuana Metabolite (THC) (3) 15 ng/ml Opiates
Morphine 2000 ng/ml
Codeine 2000 ng/ml
6-Acetylmorphine (4) 10 ng/ml Phencyclidine (PCP) 25 ng/ml

The confirmatory controlled substance test thresholds for a verified positive test result for a non safety-sensitive employee or a safety-sensitive employee tested under District authority are those that are equal to or greater than:

Amphetamines
Amphetamine 500 ng/ml
Methamphetamine (1) 500 ng/ml
Barbiturates 200 ng/ml
Benzodiazepines 200 ng/ml
Cocaine Metabolites (2) 150 ng/ml
Marijuana Metabolite (THC) (3) 15 ng/ml
Methadone 200 ng/ml
Methaqualone 200 ng/ml Opiates

DRIVER -means any person who operates a commercial motor vehicle. This includes full time, regularly employed drivers; casual, intermittent or occasional drivers; leased drivers and independent, owner-operator contractors who are either directly employed by or under lease to an employer or who operate a commercial motor vehicle at the direction of or with the consent of an employer. For the purposes of pre-employment/pre-duty testing only, the term driver includes a person applying to an employer to drive a commercial motor vehicle.

EMPLOYEE TRAINING (ALCOHOL) -No training required. However, the District must provide covered employees with educational materials that explain the alcohol misuse requirements and the District's policies and procedures with respect to meeting those requirements.

EMPLOYEE TRAINING (DRUGS) -The District must train all employees who perform safety-sensitive duties on the effects and consequences of prohibited drug use on personal health, safety, and work environment, and on the manifestations and behavioral cues that may indicate drug use and abuse. The District must also implement an education program for safety-sensitive employees by displaying and distributing informational materials, a community service hotline telephone number for employee assistance and the District policy regarding drug use in the work place which must include information regarding the consequences under the rule of using drugs while performing safety-sensitive functions, receiving a verified positive drug test result, or refusing to submit to a drug test required under the rule.

EVIDENTIAL BREATH TESTING DEVICE ("EBT") -means the device to be used for breath alcohol testing.

LAST CHANCE AGREEMENT -means a document agreed to and signed by the employer, safety- sensitive employee and the Substance Abuse Professional that outlines the terms and conditions under which the safety-sensitive employee may return to duty after having had a verified positive controlled substance test result or an alcohol concentration of 0.04 or greater on an alcohol test.

MEDICAL REVIEW OFFICER ("MRO") -means a licensed physician responsible for analyzing laboratory results generated by an employer's controlled substance (drug) testing program. The MRO is knowledgeable about substance abuse disorders and has appropriate medical training to interpret and evaluate positive test results.

POST-ACCIDENT ALCOHOL AND/OR CONTROLLED SUBSTANCE TESTING -conducted after accidents resulting in property damage, injury, or a fatality on employees whose performance could have contributed to the accident.

For Drivers a test is conducted when a citation for a moving traffic violation is issued, and for all fatal accidents even if the driver is not cited for a moving traffic violation.

REFUSE TO SUBMIT (TO AN ALCOHOL AND/OR CONTROLLED SUBSTANCE TEST) - means that a District employee fails to provide an adequate breath or urine sample for testing without a valid medical explanation after that safety-sensitive employee received notice of the requirement to be tested, or engages in conduct that clearly obstructs the testing process (i.e., verbal declarations, obstructive behavior or physical absence resulting in the inability to conduct the test.)

RETURN-TO-DUTY AND FOLLOW-UP ALCOHOL AND/OR CONTROLLED SUBSTANCE TESTING -conducted when an individual who has violated the prohibited alcohol or controlled substance conduct standards returns to performing safety sensitive duties. Follow-up tests are unannounced and at least six (6) tests must be conducted in the first twelve (12) months after an employee returns to duty. Follow-up testing may be extended for up to sixty (60) months following return to duty upon the SAP recommendation.

SAFETY-SENSITIVE EMPLOYEE (FUNCTION AND/OR POSITION) -An employee is considered to be performing a safety-sensitive function during any period in which that employee is actually performing, ready to perform, or immediately available to perform any safety-sensitive functions. A complete list of safety-sensitive employee (function and/or position) classifications is listed in **Appendix "A"** of this Substance Abuse Policy Statement.

Step increases are available to employees that have a minimum of one-year continuous service in the existing step. Available step increases will be provided on a calendar year basis upon receipt of a "meets standards" or better performance review and for qualified employees. Step increases will be provided on the first day of the first pay period following the employee's anniversary date. The General Manager may provide additional step increases in recognition of outstanding service or to adjust inequities.

2.2 WORKWEEK

The work week means a seven (7) day period beginning at 7:45 a.m. on each Monday and ending at 7:45 a.m. on the following Monday. Employees assigned to a 9-80 schedule or 4-10 schedule will have their workweek defined to prevent the payment of overtime as a result of the schedule.

The General Manager shall fix the hours of work with due regard for the convenience of the public and the laws of the State and the District. The General Manager may change the work schedule at his or her discretion. An employee shall:

- A. Work the hours and job duties assigned per the operational needs of the District.
- B. Work such additional hours or job duties as the District may request.
- C. Understand that nothing in these policies shall be construed as a restriction on the District's right to schedule workdays and require overtime work. The parties understand that changes to the current District work schedule will be implemented to minimize and reduce scheduled overtime.
- D. Be expected to perform other job duties at various times as necessary and as requested, per operational needs of the District, at various times as necessary.

Time Cards - It is the employees' responsibility to sign their time cards and to certify the accuracy of all time recorded. The employee's supervisor will review and then sign the time card before submitting it for payroll processing.

2.2.1 ALTERNATIVE WORK SCHEDULES

- A. A non-exempt employee's workweek is a fixed and regularly recurring period of 168 hours – seven consecutive 24-hour periods. It need not coincide with the calendar week but may begin on any day and at any hour of the day. The District's typical fulltime workweek consists of five, eight-hour workdays, 8:00 am to 5:00 pm, Monday through Friday however, alternative work schedules as outlined in this MOU, are permissible with the approval of the General Manager. A non-exempt employee is paid on an hourly basis and these employees are eligible to earn overtime pay.
- B. The General manager may implement alternative work schedules (AWS) for non-exempt employees (as defined below) in their department so long as adequate staffing is provided and the AWS is in conformance with the following provisions:
1. In the interest of consistency and efficiency, use of AWS shall not result in significant variation in a work schedule or adversely affect service delivery.
 2. The proposed AWS must first be submitted to the General Manager for approval using the Alternative Work Schedule Request form before being implemented.
 3. The General Manager/Human Resources shall assure that records documenting the time of day and day of week on which the employee's workweek begins shall be kept for each employee placed on an AWS.
 4. Granting and continuing an AWS is at the discretion of the General Manager. Although scheduling options may vary from department to department depending upon the specific operational requirements, there are two available alternative work schedules that differ from the usual, Monday through Friday, 8:00 am to 5:00 pm work schedule, "9/80", "4/10":
 - a) "9/80" Schedule: Employees will work eight 9-hour days and one 8-hour day every two weeks, and have one regularly scheduled day off (RDO) every other week which always falls on the same day of the week as the 8-hour work day on the opposite week during the pay period. The employee's RDO may not be changed for any purpose unless the change is intended to be permanent. The start of the workweek is deemed to be midway (4 hours) into the employee's 8-hour day. The workweek ends seven days later midway through the employee's next 8-hour regular day off (RDO). Whenever the beginning of an employee's workweek changes, e.g. changing to or from an alternative work schedule, a situation in which one or more hours or days falls in both the "old" workweek as previously constituted and the "new" workweek occurs, a computation of overtime due to overlapping workweeks must be done. Contact the Payroll Division for help with overlapping workweek overtime computations.
 - b) "4/10" Schedule: Employees will work four 10-hour days per work week and have one day off per work week.

2.3 OVERTIME HOURS/AUTHORIZATION

The District shall pay its nonexempt employees overtime compensation at the rate of one and one-half (1 ½) times the regular rate of pay, for all work in excess of eight (8) hours in one workday for those on a 5-8 schedule, nine (9) hours in one workday for those on a 9-80 schedule or ten (10) hours in one workday for those on a 4-10 schedule, and to the extent required under the Fair Labor Standards Act. The District has the right to require employees to work overtime to meet the operational needs of the District. Refusal to work overtime shall result in disciplinary action.

Overtime work for non-exempt employees must always be approved before it is performed. An employee, who works overtime hours without proper written authorization from his or her supervisor, may be disciplined pursuant to the Disciplinary Procedures outlined in Chapter 7 of this Agreement.

Employees may accrue compensatory time off (CTO) in lieu of overtime or call out pay. The accrual rate for compensatory time off shall be one and one half (1-1/2) hours each hour of compensatory time worked.

The maximum accumulation of compensatory time shall be forty (40) hours.

Once an employee terminates employment, the District shall cash out the remaining balance of compensatory time hours

2.4 ON-CALL PROCEDURES AND COMPENSATION

The District has the obligation of providing a safe and reliable water supply and an obligation to meet its contracts. Employees of the District share in this obligation. All employees of the District may be required to be on-call when necessary to meet District obligations.

2.4.1 On-Call Procedures

On-call personnel are those employees who are required to be continuously available outside of regular business hours to respond to calls for assistance. Pagers or other communication devices provided by the District to on-call employees must be kept with the employee and in the mode to receive at all times.

In the event a call is received, a return call is to be made within fifteen (15) minutes and physical response (if required) within thirty (30) minutes. Calls received from a facility (e.g. treatment plant or hydroelectric plant) should receive a physical response within thirty (30) minutes. Employees with weekend on-call responsibility shall maintain the ability to respond within the above-mentioned time, unless the employee's supervisor

has authorized alternate coverage. On-call personnel shall have a pager at all times to be ready to respond to calls. However, on-call personnel are not required to maintain any particular schedule and are free to come and go as they please and may engage in their normal social functions with the stipulation that they shall not consume alcohol or drugs (including marijuana/cannabis) to the point of impairment that would preclude legal driving or otherwise indulge in any activities that will inhibit their ability to respond to calls.

Failure of an employee to respond to a call when assigned on-call duty without properly notifying his or her supervisor of inability to respond due to sickness or injury may result in disciplinary action.

Due to the critical nature of the District's ability to respond to emergency situations, employees, who are unable to provide an on-call response due to sickness or injury, may be required to provide a physician's statement.

A request for vacation or other time off that coincides with an employee's on-call period will be denied unless the employee has made arrangements for coverage of his or her on-call period.

2.4.2 On-Call Compensation

Employees assigned to on-call duty will receive on-call pay for the period they are on-call. Effective the first full pay period after April 4, 2024, Employees shall be compensated for on-call duty at the rate of Fifty Dollars (\$50.00) ~~Forty Dollars (\$40.00)~~ per day for all weekdays, and at the rate of Seventy-Five (\$75.00) ~~Fifty Dollars (\$50.00)~~ for each weekend day or holiday. This pay represents twenty-four (24) hours of on-call duty.

In addition, employees will be compensated at the appropriate rate of pay for a physical response while on on-call duty ("Call Out Pay"). A physical response is defined as reporting to work outside of normal business hours to the location of the incident. Call Out Pay will be for the actual time worked responding to the call. In addition, if an employee on on-call duty is called to active duty, he or she shall be paid at the overtime rate for the time actually worked. Employees who troubleshoot a problem remotely, not requiring a physical response to the problem site, shall be provided one (1) hour of work or pay, if the employee works for at least thirty (30) minutes.

2.4.3 Rest Periods

An employee, who is called back to work after his or her regular shift ends, including weekend callouts, shall be paid at time and one half (1.5) of his or her regular rate of pay for the hours worked after his or her regular shift ends and before his or her regular shift begins the next day.

If an employee is called back to work after his or her regular shift ends, the employee is entitled to at least eight (8) hours of unpaid rest time without losing the overtime rate of pay from the call-back hours worked. Subject to the exceptions below, an employee must report back to work by the ninth (9th) hour following the end of his or her call-back shift.

In lieu of unpaid rest time, an employee may elect to use any accrued, unused vacation time, for his or her eight (8) hour rest period.

After the employee's unpaid rest time, the employee must either:

- A) Report back to work to complete any remaining hours worked on his or her regular schedule; or

- B) Report back to work at the start of their next regularly scheduled shift, provided that his or her regular shift has ended upon the expiration of the ninth (9th) hour following the end of his or her call-back shift. (See examples below).

When the employee returns to work, any hours remaining on his or her regular shift will be paid at the employee's regular rate of pay of the hours actually worked.

EXAMPLE A: An employee works his or her regular work shift of 7:00a.m. to 3:30 p.m. on Tuesday. The employee is called back to work at midnight and works until 2:00 a.m. on Wednesday morning. The employee is compensated at the rate of time and one-half (1.5) for the hours worked from midnight until 2:00 a.m. (2 hours). The employee may take his or her rest time either unpaid or may use unused, accrued vacation leave, which shall take place from 2:00 a.m. until 10:00 a.m. The employee is then expected to return to work at 11:00 a.m., which is nine (9) hours after his or her call-back shift has ended. He or she shall then be paid from 11:00 a.m. to 3:30 p.m. at his or her regular rate of pay.

EXAMPLE B: An employee works his or her regular work shift from 7:00 a.m. to 3:30 p.m. on Tuesday. The employee is called back to work at 1:00 a.m. and works until 7:00 a.m. on Wednesday morning. The employee is compensated at the rate of time and one half (1.5) for the hours worked from 1:00 a.m. to 7:00 a.m. (6 hours). The employee may take his or her rest time either unpaid or may use unused, accrued vacation leave, which shall take place from 7:00 a.m. until 3:00 pm. Since the employee is expected to return to work at 4:00 p.m., thirty minutes after his or her shift has ended, the employee is required to report into work at 7:00 a.m. on Thursday morning, and will not be expected to work his or her regular shift on Wednesday.

EXAMPLE C: An employee works his or her regular work shift from 7:00 a.m. to 3:30 p.m. on Tuesday. The employee is called back to work at 1:00 a.m. and works until 9:00 a.m. on Wednesday morning. The employee is compensated at the rate of time and one half (1.5) for the hours worked from 1:00 a.m. to 7:00 a.m. (6 hours). The employee is compensated at his or her regular rate of pay from 7:00 a.m. to 9:00 a.m. The employee will be allocated a rest period, either by using unused, accrued vacation leave, or take it unpaid from 9:00 a.m. to 6:00 p.m. Since the employee is expected to return to work at 6:00 p.m., two and a half hours after his or her shift has ended, the employee is required to report into work at 7:00 a.m. on Thursday morning, and will not be expected to work his or her regular shift on Wednesday.

2.5 MEAL PERIODS

Employees covered by this MOU shall not use a company vehicle to transport themselves to an offsite location for lunch without prior written permission from the General Manager or Supervisor. If lunch is desired in a location other than the work site, the employee shall provide his or her own transportation or get prior written permission from the General Manager or his or her Supervisor.

100-mile radius of the District. The employee may request the use of a District vehicle, if available. When two or more employees are attending a training session, the employees will ride together in a District vehicle and only the driver will be paid driving time. The employees may decide who the driver is. Driving responsibility shall not be divided between more than two employees per round trip. Time spent at training to maintain a required certificate is considered work time and the employee is not required to schedule leave. The meal period while at training to maintain a required certificate is not considered work time. Meals are not reimbursable, unless they are included in the tuition.

B.C. 4.2 SICK LEAVE

The objective of this section is to provide methods of furthering the health and general welfare of District employees, as well as ensuring maximum and reasonable job attendance.

Employees shall not be allowed to take sick leave until the leave time has been earned in conformance with the provisions of this MOU.

Usage - Employees are entitled to use accrued sick leave, with the approval of the General Manager, to a maximum of the time accrued, for the following conditions:

- A. An employee, employee's spouse's or employee's dependents' illness or injury. Leaves of more than three (3) days for this reason may require a doctor's or licensed practitioner's certificate indicating absence from work was necessary.
- B. An employee, employee's spouse's or employee's dependents' dental, eye or other physical or medical examination or treatment by a licensed practitioner. Unless otherwise approved, leaves for this purpose are limited to four (4) hours in any one workday.

If a holiday which an employee is entitled to have off with pay occurs on a workday during the time an employee is absent on sick leave, he or she shall receive pay for the holiday as such, and it shall not be counted as a day of sick leave.

Employees shall not use sick leave for the sole purpose of utilizing such accrued time prior to separation from service.

Bereavement Leave - An employee compelled to be absent from duty because of the death of a member of his or her immediate family (which includes a spouse, child, parent, sibling, grandparent, grandchild, or parent-in-law) may be granted the ability to use up to five (5) ~~three (3)~~ days of bereavement sick-leave per calendar year, upon approval of his or her supervisor. Leave may be taken intermittently and must be concluded within ninety (90) days of the death.

Eligible employees shall accrue sick leave credit from their first day of employment. Regular part-time employees shall accrue sick leave on a pro-rata basis.

Accrued sick leave is not compensable upon separation of service.

Employees retiring under the Public Employees' Retirement System (PERS) shall receive retirement credit for unused sick leave at the rate determined by PERS. Employees otherwise terminated or separated from service shall not receive compensation for unused sick leave.

Administration of Sick Leave - An employee shall notify his or her supervisor before 8:15 a.m. if sick. An employee is required to notify his or her supervisor of illness on a daily basis, unless a medical practitioner has advised the employee in writing that a multiple day absence is necessary. Employees who wish to use their sick leave time for planned medical services must coordinate the sick leave with their supervisor to meet the District workload.

Upon return to work, employees may be required to submit a sick leave request form or record of sick leave use to his/ her supervisor for approval. The General Manager may request information in order to aid in the determination of whether the sick leave use is legitimate. The General Manager may require a physician's statement or acceptable substitute from an employee who applies for sick leave or make whatever reasonable investigation into the circumstances that appear warranted before taking action on a sick leave request.

Prior to the resumption of work duties after taking any occurrence of sick leave or industrial disability leave due to injury or illness, an employee may be required to undergo a physical examination by the District physician or submit a certificate of employability from the employee's treating physician.

Employees absent for illness or injury longer than ten (10) consecutive working days or longer shall not be permitted to return to duty without a physician's certificate releasing the employee for normal duty and attesting to the employee's ability to perform the normal duties of the position.

Sick Leave--Excessive Usage - The sick leave program is designed to provide employees with two benefits: (i) available paid leave for a reasonable amount of short-term illnesses, and (ii) provide a savings bank of time to ensure available paid leave for long-term illnesses. In order to ensure that the sick leave program is being utilized for both purposes, all District employees are monitored to ensure that their usage of the sick leave benefits is not excessive. "Excessive usage is defined as follows:

- A. Where an employee utilizes more than four days for sick leave in any calendar year in connection with the day before or after a holiday or first or last day of workweek;
- B. Where an employee is absent from work on at least eight separate occasions for a total of at least sixty-four hours in a calendar year for two years in a row.

- A. The first year an employee is identified as having excessive usage the employee shall be counseled by their supervisor and shall receive a sick leave reminder letter, which will be placed in the employee's personnel file.
- B. If an employee is identified as having excessive sick leave usage two consecutive years or two out of three years, the employee will be counseled by their supervisor and shall receive a written reprimand which will be placed in the employee's personnel file. All sick leave usage will require a doctor's excuse for a period of one year following the written reprimand.
- C. If an employee is identified as having excessive sick leave usage three consecutive years or three out of four years, the employee will receive a three-day suspension without pay. Sick leave usage will continue to require a doctor's excuse for a period of one year.
- D. If an employee is identified as having excessive sick leave usage in excess of four consecutive years or four out of five years, serious disciplinary action, which may include termination from service, will occur.

An employee that uses sick leave for illegitimate purposes shall be subject to discipline and the District may recover such funds from the employee.

4.3 VACATION LEAVE

For the benefit of regular full-time employees, the District provides annual vacation leave. Vacation leave is accrued on the basis of biweekly payrolls. For regular part-time employees, the annual vacation leave rates are pro-rated.

For purposes of this section, one (1) year shall be equivalent to twenty-six (26) bi-weekly pay periods of continuous service as a regular full-time or regular part-time employee.

Vacation Accrual Rates:

<u>Years of Service</u>	<u>Biweekly AccrualHours per Year</u>	
<u>New employee to completion of 5th year</u>	<u>3.692 hours</u>	<u>96 hours</u>

Coordination of Time Off Work for all employees: - The employee's immediate supervisor and the General Manager must approve in advance all leave, including vacation, uncompensated time off, or any other leave. Sufficient notice in order to ensure adequate coverage is required. Employees must request the vacation leave a minimum of ten (10) working days prior to the desired start of vacation leave. Application for leave forms will be available in the District office.

The employee shall not use District transportation to or from jury duty. 4.6 Job Abandonment (AWOL)

An employee is deemed to have voluntarily resigned without good cause if the employee is absent for three consecutive work days without prior authorization and without notification during the period of the absence ("AWOL"). Only regular employees will receive notice of intent to terminate, an opportunity to respond, and final notice of termination for job abandonment. An employee separated for job abandonment may be reinstated by the General Manager upon proof of justification for such absence, such as severe accident, severe illness, false arrest, or mental or physical impairment which prevented notification. Specifically excluded from the grievance procedures are claims or complaints of alleged discrimination or harassment, complaints relating to performance evaluations, and all disciplinary actions. Specific procedures for concerns regarding those items are addressed in separate sections of this Agreement, or in the District's Personnel Rules.

6.2 GRIEVANCE PROCEDURE STEPS

Level I. Preliminary Informal Resolution. An employee who believes she or he has a grievance shall present it orally to his or her immediate supervisor within ten (10) business days after the employee knew, or reasonably should have known, of the circumstances that form the basis for the grievance. The immediate supervisor will discuss the grievance with the employee and respond to the employee in writing within ten (10) business days after their discussion. If the grievance is against the employee's supervisor, the employee may skip Level I and advance to Level II, provided he or she complies with all applicable time limits and other requirements for Level I.

Level II Supervisor. If the grievance is not resolved at Level I, the employee may present his or her grievance in writing to his or her supervisor or to the General Manager (if the employee's supervisor is the General Manager) within ten (10) business days of the date of the Level I response.

In the event the grievance is not resolved at Level II, the employee may, within seven (7) business days of the date of the Level II response, appeal the decision in writing to the General Manager. If the decision being appealed was made by the General Manager, then the employee may skip Level III and proceed to Level IV. Within ten (10) calendar days from the date of General Manager's receipt of the Level III grievance, the General Manager will issue a written determination to the employee.

Level IV. Hearing. If the grievance is not resolved at Level III or if the grievance is against the General Manager, the employee may, within seven (7) business days of the date of the Level III written response, appeal the decision by submitting to the General Manager a written request for appeal by a designated hearing officer, who will be selected in accordance with section 7.4.5 of this Agreement. After the hearing, the hearing officer will issue a written decision on the matter. The hearing officer's decision shall be final and binding on the parties.

6.3 GENERAL RULES FOR GRIEVANCES

All employee grievances must follow the steps outlined above. Except as expressly stated in this Agreement, at no time may an employee bypass a step. Time limits set forth above may be extended upon the written consent of both parties. Employees will not be retaliated against for filing or pursuing a grievance in good faith under this procedure. Employees are entitled to representation throughout the grievance process.

Sexual harassment is a form of discrimination that is prohibited by Title VII of the Civil Rights Act of 1964 and California Government Code Section 12940. Sexual harassment is a costly form of discrimination that can result in expensive litigation that may result in back pay or punitive damage awards, withdrawal of Federal support funds and/ or other adverse actions. District employees have a grave responsibility for maintaining high standards of honesty, integrity, impartiality, and conduct to assure proper performance of the District's business and the maintenance of confidence of the people it serves. It will, therefore, be a violation of District policy for any employee to engage in any of the acts or behaviors set forth in the District Harassment Policy or in violation of any laws thereon.

8.3 DISTRICT VEHICLES

District vehicles are to be used only for authorized business and are to be operated by authorized personnel. Unauthorized persons (i.e. spouses, children etc.) are not permitted in District vehicles. District vehicles are to be picked up and left off at the District yard each working day. District vehicles will not be taken home, except as noted below.

Employees subject to 24-hour maintenance calls are authorized to drive District vehicles home. The possession of Alcoholic beverages, marijuana or unlawful substances of any kind are not permitted inside a District vehicle. Employees shall not smoke or use any marijuana products in District vehicles. As the use of a District vehicle in and out of working hours is subject to public scrutiny, all employees should drive with courtesy and safety at all times.

Possession of a valid California Driver's License and a satisfactory driving record to maintain insurability is required for all personnel operating District vehicles.

The District participates in the Department of Transportation (D.O.T.) Employee Pull Notice Program. Management will review records for anyone operating District vehicles.

Employees seeking a variance from this policy must receive a variance in writing from the General Manager or Board of Directors prior to using District vehicles in a manner other than specified in the policy.

8.4 HIRING EMPLOYEES

New Employees - Medical Examination Policy - The District, in conjunction with the District's Worker's Compensation Administrator, shall establish a medical exam procedure for new and prospective employees.

Introductory Period - The Introductory / Probationary Period for newly hired appointees to a regular position is twelve (12) months. This is the time-limited period of paid service, which is an extension of the examination process. It is intended to give new full-time and part-time appointees the opportunity to demonstrate their ability to achieve a satisfactory level of performance and to determine whether the new position meets their expectations. Like all at-will employees, during the introductory period an employee may be dismissed at any time without prior notice and without cause.

8.5 PEACEFUL PERFORMANCE

The District and the Union recognize and acknowledge that the work performed by bargaining unit members in providing a clean, safe, reliable water supply to the Georgetown Divide is essential to the public safety, health and general welfare of the community. Neither the Union nor any steward, agent or employee will instigate, promote, sponsor, engage in or condone any strike, sympathy strike, secondary boycott, slowdown, speed-up, sit-down, concerted stoppage of work, concerted refusal to perform overtime, mass absenteeism, or any other intentional interruption or disruption of the operation of the District, regardless of the reason for so doing. The District shall not be required to meet and confer or negotiate on the merits of any dispute that may have given rise to an unlawful work stoppage until said work stoppage has ceased. Violation of this article shall be grounds for disciplinary action up to and including termination of employment. Each employee who holds the position of steward of the Union occupies a position of special trust and responsibility in maintaining and bringing about compliance with the provisions of this Section. In addition, in the event of a violation of this Section the Union agrees to inform its members of their obligations under this Agreement and to direct them to return to work.

8.6 ORDER OF LAYOFF

In the event a layoff is necessary, the General Manager, with the approval of the Board of Directors, shall determine which classification(s) will be affected. Flexibly staffed positions (I's and II's) will be treated as one classification for the purpose of this provision. Prior to the layoff of permanent employees, notice of release of employment shall first be given to employees in the following order by class or classes: extra help, provisional and probationary employees in the targeted classifications. The following sequence will be used to determine the order in which permanent employees in the targeted classifications will be laid off.

1. Permanent employees whose last recorded overall performance rating was "unacceptable" in the performance evaluation done ninety (90)

days or more prior to the notice of layoff.

2. Permanent employees shall be laid off, by class, in the inverse order of seniority within classification within a department. Permanent part-time employees' seniority will be prorated based on hours worked.
- ~~3.~~ Employees who voluntarily demote to a lower classification (not as part of a layoff and the layoff process) shall have their hours of service in the higher classification transferred to the lower classification for the purpose of calculating seniority for layoff purposes only.
- 3.
4. The least senior employee may choose to "bump" to any class with the same or lower maximum salary in which the employee had previously served in a permanent status.
5. Ties. In the event of a tie in seniority the final decision will be made by lot.

8.7 Global Positioning System (GPS)

For District vehicles in which a Fleet Management Global Positioning System (GPS) has been installed, the following will apply:

1. The purpose of the District's Fleet Management GPS is to record daily and annual miles per vehicle. This information will be used to manage vehicle maintenance, project fuel costs, and determine the infrastructure that will be required to sustain the electrification of all District vehicles as mandated by State of California regulations. In addition to any uses described elsewhere in this Section, the GPS capabilities may also be used for other business-related purposes, including, but not limited to, metrics, performance measures, locating stolen vehicles, determining the location of vehicles during work shifts, providing aid to vehicles with mechanical failures, increasing employee safety, and managing agency resources effectively.
2. The Fleet Management GPS will provide increased employee safety, especially for those employees who drive alone in a District vehicle.
3. Upon reasonable suspicion by District management that employee(s) is/are performing misconduct of any kind, or in violation of District directives or personnel policies, the Fleet Management GPS may be used as a tool to monitor the work activities of such employee(s). However, such monitoring shall last for a period not to exceed ninety (90) days.
4. Historical data contained within the Fleet Management System shall be maintained in accordance with the District's record retention policy.
5. In addition to the above-mentioned uses, GPS data may be used as part of an accident investigation or in response to a citizen's complaint.
6. The District may use GPS data, so acquired based upon underlying reasonable suspicion as set forth in subsection 3 above, during a disciplinary investigation or discipline of its employees pertaining to the

misuse or abuse of their vehicles, the appropriate use of time, or other misconduct or violation of District directives or personnel policies.

7. Employees are prohibited from tampering with, altering or attempting to alter, disabling, or destroying any Fleet Management GPS system or GPS data.

Access to information from the Fleet Management GPS shall be limited to those departments and programs with a well-defined business need, such as Financial Services for budgeting and infrastructure planning, Field Services for vehicle maintenance, and Risk Management for accident investigations and responses to vehicle complaints from the public. Human Resources or other authorized management employees may access the data, pursuant to subsection 3 above, as part of an inquiry into employee misconduct. A supervisor or manager may access vehicle location data when there is concern for an employee's well-being and safety.

GEORGETOWN DIVIDE PUBLIC UTILITY DISTRICT ALCOHOL AND DRUG-FREE WORKPLACE POLICY

The purpose of this Alcohol and Drug-Free Workplace Policy ("Policy") is to assure worker fitness for duty and to protect our employees, passengers and the public from risks posed by the use of alcohol and controlled substances. This Policy is also intended to comply with all applicable State and Federal regulations governing workplace anti-drug programs in the transportation industry.

The Georgetown Divide Public Utility District ("District") recognizes that the use of alcohol or controlled substances in the workplace is not conducive to safe working conditions. In order to promote a safe, healthy and productive work environment for all employees, it is the objective of the District to have a work-force that is free from the influence of alcohol and controlled substances.

A. APPLICABILITY

This Policy applies to all employees, volunteers, and interns when they are on District property or when performing any District-related business. It applies to off-site lunch periods and breaks when an employee is scheduled to return to work. It also applies to those employees on stand-by duty. Visitors, vendors, and contracted employees are governed by this Policy while on District premises, and they will not be permitted to conduct business if found to be in violation of this Policy.

A listing of the District's classifications, including safety-sensitive (function and/or position) classifications covered by this Policy can be found in Appendix "A" of this Policy. A safety-sensitive employee is considered to be performing a safety-sensitive function during any period in which that employee is actually performing, ready to perform, or immediately available to perform any safety-sensitive functions.

B. PROHIBITED SUBSTANCES

"Prohibited Substances" addressed by this policy include the following:

1. Illegal Drugs

Illegal drugs means a controlled substance, as defined in Schedules I through V of Section 202 of the Controlled Substances Act, 21 U.S. C. § 812, which includes, but are not limited to the following:

Amphetamines, barbiturates, benzodiazepines, cocaine, marijuana, methadone, methaqualone, opiates, phencyclidine ("PCP").

2. Legal Drugs

Use of any legal drug (a) for any purposes other than the purposes for which it was prescribed or manufactured or in a quantity, frequency, or (b) in a manner that is contrary to the instructions or recommendations of the prescribing physician or manufacturer. Use or possession of marijuana/cannabis during working hours and being impaired by the psychoactive properties of marijuana/cannabis during working hours.

3. Alcohol

Use of beverages or substances, including any medication, containing alcohol such that it is present in the body at a level in excess of that stated in Department of Transportation guidelines while actually performing, ready to perform, or immediately available to perform any District business is prohibited.

"Alcohol" is defined as: the intoxicating agent in beverage alcohol, ethyl alcohol, or other low molecular weight alcohol, including methyl or isopropyl alcohol.

C. PROHIBITED CONDUCT

1. Manufacture, Trafficking, Possession, and Use

Any District employee engaging in the unlawful manufacture, distribution, dispensing, possession or use of a Prohibited Substance on District premises, in District vehicles or while conducting District business off the premises is absolutely prohibited.

A violation of this Policy will result in disciplinary action pursuant to the District's Personnel Rules. For employees in a safety-sensitive position, a violation will result in removal from safety-sensitive duty and referral to a Substance Abuse Professional ("SAP"), as described in Section G of this Policy.

2. Impaired/Not Fit for Duty

Any District employee, who is reasonably suspected of being impaired, under the influence of a Prohibited Substance, or is not fit for duty shall be removed from his or her job duties and be required to undergo a reasonable suspicion controlled substance or alcohol test as outlined in Appendix "B" of this Policy.

Employees failing to pass this reasonable suspicion test shall remain off duty and be referred to a SAP. A controlled substance or alcohol test is considered positive (failed) if the individual is found to have a quantifiable presence of a Prohibited Substance in the

body above the minimum thresholds defined in the Department of Transportation guidelines, or if the employee refuses to submit to the reasonable suspicion testing.

3. Alcohol Use

No District employee may report for duty or remain on duty when his or her ability to perform assigned functions is adversely affected by alcohol or when his or her breath alcohol concentration is 0.04 or greater. No District employee shall use alcohol while on duty or while performing safety-sensitive functions. Any violation of this Policy may be subject to discipline under the District's Personnel Rules.

No safety-sensitive employee shall use alcohol within four (4) hours of reporting for duty nor during hours that he or she is on call. Violation of this provision is prohibited and will subject the employee to removal from safety-sensitive duty and referral to a SAP.

D. NOTIFYING THE DISTRICT OF CRIMINAL DRUG CONVICTION

Pursuant to 41 U.S.C.A. § 8103, any employee who fails to notify the District of any criminal controlled substance-related statute conviction shall be subject to disciplinary action under the District's Personnel Rules, which may include termination of employment. Employees must notify the District of any criminal controlled substance-related statute conviction no later than five (5) days after the conviction.

E. PROPER APPLICATION OF THE POLICY

The District is dedicated to assuring fair and equitable application of this Policy. Therefore, supervisors are required to administer all aspects of the Policy in an unbiased and impartial manner. Any supervisor who knowingly disregards the requirements of this Policy, or who is found to deliberately misuse the Policy with respect to his or her subordinates shall be subject to disciplinary action under the District's Personnel Rules, which may include termination of employment.

F. TESTING FOR PROHIBITED SUBSTANCES

1. Compliance with Testing Requirements

All safety-sensitive employees, listed in Appendix "A", are subject to pre-employment, reasonable suspicion testing, and post-accident controlled substance testing and breath alcohol testing. Employees, who are in possession of a commercial driver's license are also subject to random drug testing, in addition to the testing mention above. All other District employees are subject to pre-employment testing, reasonable suspicion testing and post-accident testing controlled substance testing and breath alcohol testing.

Any District employee who refuses to comply with a request for testing, who provides false information in connection with a test, or who attempts to falsify test results through tampering, contamination, adulteration, or substitution shall be removed from duty_i

immediately and be referred to a SAP. Refusal to submit to a test can include an inability or refusal to provide a urine specimen or breath sample without a valid medical explanation, as well as a verbal declaration, obstructive behavior or physical absence resulting in the inability to conduct the test.

2. Testing Procedures

The District will refer the applicant or employee to an independent, National Institute on Drug Abuse ("NIDA") certified medical clinic or laboratory, which will administer the test. The District will pay the cost of the test. If the employee is determined by verifiable and confirmed, reasonable suspicion observation as unable to drive or impaired for driving, then a District supervisor will transport the individual to a medical facility for immediate testing.

Detailed procedures pertaining to each type of testing is outlined in Appendix "B" of this Policy.

3. Types of Testing-All District Employees

All District employees may be tested under any of the following circumstances:

a. Pre-Employment Testing

All applicants for District classifications shall undergo controlled substance testing prior to employment. Receipt of satisfactory test results is required prior to employment and failure of a controlled substance test will disqualify the applicant from further consideration for employment.

b. Reasonable Suspicion Testing

All District employees will be subject to Prohibited Substance testing when there is a reason to believe that Prohibited Substance use is adversely affecting job performance. A reasonable suspicion referral for testing will be made on the basis of documented objective facts and circumstances, which are consistent with the effects of Prohibited Substance abuse. Examples of reasonable suspicion include, but are not limited to, the following:

1. Adequate documentation of unsatisfactory work performance or on-the-job behavior.
2. Physical signs and symptoms consistent with prohibited substance use.
3. Occurrence of a serious or potentially serious accident that may have been caused by human error.
4. Fights (to mean physical contact), assaults and flagrant disregard or violations of established safety, security, or other operation procedures.

Reasonable suspicion determinations will be made by a supervisor, who is trained to detect the signs and symptoms of Prohibited Substance use, and who reasonably concludes that an employee may be adversely affected or impaired in his or her work performance due to Prohibited Substance abuse or misuse. Supervisors should use the form attached to this Policy as Appendix "C" to determine whether there is a verifiable and confirmed reasonable suspicion observation.

c. Post-Accident Testing

All District employees will be required to undergo Prohibited Substance testing if they are involved in an accident with a District vehicle that results in personal injury to an employee or others, which require first aid or medical attention or if there is damage to District property. This includes all employees who are on duty in the vehicles and any other whose performance could have contributed to the accident.

Following an accident, the employee will be tested as soon as possible, but not to exceed eight (8) hours for alcohol testing and thirty-two (32) hours for controlled substance testing. If an alcohol test is not administered within two (2) hours following the accident, the District shall prepare and maintain a record stating the reasons the test was not promptly administered. Further, if an alcohol test is not administered within eight (8) hours or a controlled substance test is not administered within thirty-two (32) hours following the accident, the District shall cease attempts to administer testing and shall prepare and maintain a written record.

Any safety-sensitive employee, who leaves the scene of an accident without appropriate authorization prior to submission to Prohibited Substance testing, will be considered to have refused the test and subject to discipline, up to and including termination. That being said, the testing requirement should not be construed to require the delay of necessary medical attention for injured people following an accident or to prohibit a safety-sensitive employee from leaving the scene of an accident for the period necessary to obtain assistance in responding to the accident, or to obtain necessary emergency medical care. Furthermore, the results of a breath alcohol, a blood alcohol or a urine controlled substance test conducted by Federal, State, or local officials having independent authority for the test, shall be considered valid, provided those tests conform to the applicable Federal, State or local testing requirements, and that the results of the tests are obtained by the District.

d. Return-to-Duty Testing

All employees who previously tested positive on a Prohibited Substance test must test negative and be evaluated and released to duty by the SAP before returning to duty. Employees will be required to undergo unannounced follow-up Prohibited Substance testing following returning to duty. The duration and frequency will be determined by the SAP. However, it shall not be less than six (6) tests during the first twelve (12) months, nor longer than sixty (60) months in total, following return to duty.

e. Employee Requested Testing

Any employee, who questions the result of a required controlled substance test under Department of Transportation guidelines, may request that an additional test be conducted. This additional test may be conducted at the same laboratory or at a different Department of Health and Human Services ("DHHS") certified laboratory. The test must be conducted on the split sample that was provided at the same time as the original sample. All costs for such testing are to be paid by the employee unless the second test invalidated the original test. The method of collecting, storing, and testing the split sample will be consistent with the procedures set forth in the Department of Transportation guidelines. The employee's request for a retest must be made to the Medical Review Officer within seventy-two (72) hours of notice of the initial test result.

Requests after seventy-two (72) hours will only be accepted if the delay was due to documentable facts that were beyond the control of the employee.

4. Types of Testing-Employees with Commercial Driver's License

In addition to pre-employment testing, reasonable suspicion testing, post-accident testing, return to duty testing, and employee-requested testing, employees, who are in possession of a commercial driver's license are subject to random testing.

a. Random Testing

Employees in possession of a commercial driver's license will be subjected to randomly selected, unannounced testing. The random selection will be by a scientifically valid method. Each employee in possession of a commercial driver's license will have an equal chance of being tested each time selections are made. These eligible employees will be tested either just before departure, during duty, or just after the eligible employee has ceased performing his or her duty.

5. Treatment/Rehabilitation Program

An employee with a Prohibited Substance problem will be afforded an opportunity for treatment. Participants in the rehabilitation program may use accumulated sick leave, vacation and floating holidays, if any. Treatment for District employees will be in accordance with the following provisions:

a. Positive Controlled Substance and/or Alcohol Test

A Rehabilitation Program is available for District employees, who have tested positive for a Prohibited Substance on a one-time basis only. Employee will be immediately terminated on the occurrence of a second verified positive test result. **Program costs and subsequent**

controlled substance or alcohol testing costs will be paid by the employee.

When recommended by the SAP, participation and completion of the rehabilitation program is mandatory. Failure of an employee in possession of a commercial driver's license to attend or complete a prescribed program will result in termination from employment.

Prior to return-to-duty testing, an employee must follow the rehabilitation program recommended by the SAP and agree to and sign a "Last Chance Agreement", whereby he or she agrees that if any future misconduct occurs because of controlled substance or alcohol abuse, or if the employee fails to complete the rehabilitation program, he or she will be subject to termination from employment. The duration and frequency of follow-up testing will be determined by the SAP but will not be shorter than one year or longer than five years.

b. Voluntary Admittance:

All employees, who feel they have a problem with Prohibited Substances, may request voluntary admission to the rehabilitation program. Requests must be submitted to the General Manager or his or her designee for review. **Program costs and subsequent controlled substance and/or alcohol testing costs will be paid by the employee.**

Employee must agree to and sign a "Last Chance Agreement", whereby he or she agrees that if any future misconduct occurs as a result of Prohibited Substance abuse, or if the employee fails to complete the rehabilitation program, he or she will be subject to termination from employment. Additionally, upon completion of a rehabilitation program, employee must pass a return-to-duty controlled substance and/or alcohol test and be subject to unannounced follow-up testing for thirty-six (36) months following return to duty. A positive result on the return-to-duty test or on the unannounced follow-up tests within a thirty-six (36) month period will result in termination from employment.

6. Confidentiality and Privacy

All Prohibited Substance test results are reported to the General Manager and will remain and be considered confidential. Results will only be disclosed within the District on a need-to-know basis and as allowed by law.

The Prohibited Substance test results will be retained in a secure location. Information about an employee's medical condition or history obtained in connection with a Prohibited Substance test will be kept in a file separate and apart from the employee's personnel file. The release of an individual's Prohibited Substance test results and other information gained in the testing process will only be otherwise disclosed in accordance with an employee's written authorization or as otherwise required or permitted by applicable law. For example, test results and other information obtained in the testing process may be used and disclosed in litigation (e.g., arbitration, administrative hearings or judicial proceedings) if

the information is relevant to the hearing or proceeding, to any government agency to the extent required by law, rule or regulation, or to a substance abuse or rehabilitation assessment/treatment facility or provider for the purpose of evaluation/assessment or treatment.

The District will attempt to ensure that all aspects of the testing process, including specimen or sample collection, are as private and confidential as reasonably practical.

G. EMPLOYEE ASSESSMENT BY A SUBSTANCE ABUSE PROFESSIONAL

Any District employee, who tests positive for the presence of a Prohibited Substance or whose breath alcohol concentration is above the minimum thresholds set forth in the Department of Transportation guidelines, will be assessed by a SAP. A SAP is a licensed physician, psychologist, social worker, employee assistance professional, or addiction counselor with knowledge of and clinical experience in the diagnosis and treatment of alcohol or controlled substance-related disorders. The SAP will evaluate each employee to determine what assistance, if any, the employee needs in resolving problems associated with prohibited substance abuse or misuse.

If a District employee is returned to duty following rehabilitation, he or she must agree to and sign a "Last Chance Agreement", pass a return-to-duty controlled substance and/or alcohol test and be subject to unannounced follow-up tests for a period of one to five (5) years, as determined by the SAP. **The cost of any rehabilitation and subsequent controlled substance or alcohol testing is borne by the employee and is on a one-time basis only. Employee will be immediately terminated on the occurrence of a second verified positive test result.**

I. ACKNOWLEDGMENT

J. RESERVATION OF RIGHTS

This Policy supersedes and revokes any other District practice or policy relating to the use of drugs and alcohol in the workplace, Prohibited Substance testing, and all other subject matter discussed in this Policy. This Policy is not an express or implied contract of employment, nor is it to be interpreted as such. APPENDIX "B"
PROCEDURES
for
THE GEORGETOWN DIVIDE PUBLIC UTILITY DISTRICT

A. PROCEDURES-REASONABLE SUSPICION TESTING

1. An employee who may possibly be under the influence of a Prohibited Substance is observed by a supervisor.
2. Any employee may identify someone suspected of being under the influence of a Prohibited Substance to any supervisor. Employees should realize, however, that it is a violation of the District's Personnel Rules to make false or malicious statements about other employees and doing so can result in disciplinary action, up to and including termination, being taken against the offending employee. However, the supervisor must witness firsthand the employee's signs and symptoms.
3. The supervisor is then obligated to ensure that the matter is immediately investigated. If possible, two (2) supervisors determine (independently or together) that the employee in question may indeed be under the influence of a Prohibited Substance. The supervisor shall fill out the "Reasonable Suspicion" form to document his or her reasonable suspicions.
4. When the supervisor(s) suspect and believe that the employee may be under the influence of a Prohibited Substance, the employee is then immediately suspended from duty (with pay) and driven by District staff (or others designated) to the District specified collection site. Because of a testing facility requirement, the employee in question must show proof of identification, such as a photo driver's license or state-issued photo identification card.
5. Whenever practical, the General Manager should be notified in advance of the employee being taken to the collection site.
6. At the collection site, the employee will be required to submit a urine sample in the event that controlled substances are suspected or a breath sample in the event that alcohol intoxication is suspected to the on-duty technician. Care will be taken to provide the employee with maximum privacy without compromising the integrity of the sample.

7. The District will take precautions to prevent the employee being tested from going back to work and driving their own car home. Instead, the employee will be given assistance in obtaining a ride home from the collection site.
8. The employee whose test results are negative (less than 0.02 alcohol concentration) will be reinstated. The employee whose confirmation test results indicate an alcohol concentration greater than 0.02 but less than 0.04, will not be permitted to return to duty for twenty-four (24) hours after administration of the test. The employee whose confirmation test result indicates an alcohol concentration of 0.04 or greater for alcohol will be referred to a District specified outside SAP who will assess the employee's condition and make a recommendation for treatment which, if accepted by the District, must be followed by the employee. Failure to follow the accepted recommendations or refusal to submit to return-to-duty and unannounced follow-up testing will result in the employee's termination.
9. The employee whose controlled substance test results are verified negative will be reinstated. The employee whose controlled substance test is verified positive by the Medical Review Officer will be referred to a District specified outside SAP, who will assess the employee's condition and make a recommendation for treatment which, if accepted by the District, must be followed by the employee. Failure to follow the accepted recommendations or refusal to submit to return-to-duty and unannounced follow-up testing will result in the employee's termination.

B. PROCEDURES-RANDOM TESTING

1. The compliance company notifies the supervisor to send the eligible employee to the collection site for alcohol or controlled substance testing.
2. The supervisor notifies the eligible employee to go to the collection site for alcohol or controlled substance testing immediately. Because of a testing facility requirement, the eligible employee in question must have proof of identification, such as a photo driver's license or state-issued photo identification card.
3. At the collection site, the eligible employee will be required to submit a urine sample in the event that controlled substances are to be tested for, or a breath sample in the event that alcohol is being tested for to the on-duty technician. Care will be taken to provide the eligible employee with maximum privacy without compromising the integrity of the sample.
4. The eligible employee whose test results are negative (less than 0.02 alcohol concentration) will be reinstated. The eligible employee whose confirmation test results indicate an alcohol concentration greater than 0.02 but less than 0.04, will not be permitted to return to duty or perform a safety-sensitive function for twenty-

four (24) hours after administration of the test. The eligible employee whose confirmation test result indicates an alcohol concentration of 0.04 or greater for alcohol will be referred to a District specified outside SAP who will assess the eligible employee's condition and make a recommendation for treatment which, if accepted by the District, must be followed by the eligible employee. Failure to follow the accepted recommendations or refusal to submit to return-to-duty and unannounced follow-up testing will result in the eligible employee's termination.

5. The eligible employee whose controlled substance test results are verified negative will be reinstated. The eligible employee whose controlled substance test is verified positive by the Medical Review Officer will be referred to a District specified outside SAP who will assess the eligible employee's condition and make a recommendation for treatment which, if accepted by the District, must be followed by the eligible employee. Failure to follow the accepted recommendations or refusal to submit to return-to-duty and unannounced follow-up testing will result in the eligible employee's termination.

C. PROCEDURES-POST-ACCIDENT

1. The employee notifies a supervisor that an accident has occurred.
2. The supervisor determines that the circumstances of the accident warrant a post-accident test when an injury occurred as a result of the accident or District property was damaged. Thereafter, the supervisor directs the employee to immediately go to the collection site for alcohol and controlled substance testing. Because of a testing facility requirement, the employee in question must have proof of identification, such as a photo driver's license or state-issued photo identification card.
3. At the collection site, the employee will be required to submit a urine sample for controlled substances and a breath sample for alcohol testing to the on-duty technician. Care will be taken to provide the employee with maximum privacy without compromising the integrity of the sample.
4. The General Manager will be notified that an accident has occurred, and that the employee was instructed to go to the collection site.
5. The employee whose test results are negative (less than 0.02 alcohol concentration) will be reinstated. The employee whose confirmation test results indicate an alcohol concentration greater than 0.02 but less than 0.04, will not be permitted to return to duty for 24 hours after administration of the test. The employee whose confirmation test result indicates an alcohol concentration of 0.04 or greater for alcohol will be referred to a District specified outside SAP who will assess the employee's condition and make a recommendation for treatment which, if accepted

by the District, must be followed by the employee. Failure to follow the accepted recommendations or refusal to submit to return- to-duty and unannounced follow-up testing will result in the employee's termination.

6. The employee whose controlled substance test results are verified negative will be reinstated. The employee whose controlled substance test is verified positive by the Medical Review Officer will be referred to a District specified outside SAP, who will assess the employee's condition and make a recommendation for treatment which, if accepted by the District, must be followed by the employee. Failure to follow the accepted recommendations or refusal to submit to return-to-duty and unannounced follow-up testing will result in the employee's termination.

D. PROCEDURES -RETURN-TO-DUTY and FOLLOW-UP

1. The compliance company notifies the District to send the employee to the collection site for alcohol and controlled substance testing.
2. The supervisor notifies the employee to immediately go to the collection site for alcohol and controlled substance testing. Because of a testing facility requirement, the employee in question must have proof of identification, such as a photo driver's license or state- issued photo identification card.
3. At the collection site, the employee will be required to submit a urine sample for controlled substances and a breath sample for alcohol testing to the on-duty technician. Care will be taken to provide the employee with maximum privacy without compromising the integrity of the sample.
4. The employee whose confirmation test results indicate an alcohol concentration greater than 0.02 or whose controlled substance test is verified positive will be terminated.

E. PROCEDURES -CHAIN OF CUSTODY FOR CONTROLLED SUBSTANCE SPECIMENS

1. At the time a specimen is collected, the employee will be given a copy of the specimen collection procedures.
2. Urine will be in a wide-mouthed clinic specimen container, which will remain in full view of the employee until split, transferred to, sealed and initialed in two tamper-resistant urine bottles.
3. Immediately after the specimens are collected, the urine bottles will, in the presence of the employee, be labeled and then initialed by the employee. If the sample must be collected at the site other than the controlled substance and/or

alcohol testing laboratory, the specimens will then be placed in the transportation container. The container will be sealed in the employee's presence and the employee will be asked to initial or sign the container. The container will be sent to the designated testing laboratory on that day or the earliest business day by the fastest available method.

4. A chain of custody form will be completed by the on-duty technician during the specimen collection process and attached to and mailed with the specimen.

F. PROCEDURES -SPECIMEN COLLECTION OF STRANGE AND/OR UNRECOGNIZABLE SUBSTANCES

1. An employee is observed with a strange and/or unrecognizable substance.
2. The supervisor, in the presence of a witness, places the strange and/or unrecognizable substance into a clear plastic bag. The bag is sealed, labeled and signed by both the supervisor and a witness.
3. An incident report is made and signed by both the supervisor and a witness.
4. The plastic bag containing the specimen and a copy of the incident report is taken to the collection site for transportation to the laboratory for analysis.

G. PROCEDURES -ALCOHOL CONCENTRATION

1. The employee and the on-duty Breath Alcohol Technician ("BAT") complete the alcohol testing form to ensure that the results are properly recorded.
2. After an explanation of how the breathalyzer works, an initial breath sample is taken.
3. If the results of the initial test show an alcohol concentration of 0.02 or greater a second or confirmation test must be conducted. The confirmation test must not be conducted less than 15 minutes after, nor more than 30 minutes after the screening test.
4. The confirmation test will utilize Evidential Breath Testing devices that prints out the results, date and time, a sequential test number, and the name and serial number of the Evidential Breath Testing device to ensure the reliability of the results.

ALCOHOL CONCENTRATION -means the alcohol in a volume of breath expressed in terms of grams of alcohol per 210 liters of breath as indicated by an evidential breath test under this regulation. For example, 0.02 means 0.02 grams of alcohol in 210 liters of expired deep lung air.

ALCOHOL USE -means consumption of any beverage, mixture, or preparation, including any medication containing ethyl alcohol. Since ingestion of a given amount of alcohol produces the same alcohol concentration in an individual whether the alcohol comes from a mixed drink or cough syrup, the Department of Transportation prohibits the use of any substance containing alcohol, such as prescription or over-the-counter medication or liquor-filled chocolates.

Prescription medications containing alcohol may have a greater impairing affect due to the presence of other elements (e.g., antihistamines).

BREATH ALCOHOL TECHNICIAN ("BAT") -means a person trained to proficiency in the operation of the Evidential Breath Testing (EBT) device that the technician is using in the alcohol testing procedures. BATs are the only qualified personnel to administer the EBT tests.

CHAIN OF CUSTODY -means the procedures to account for the integrity of each urine specimen by tracking its handling and storage from point of collection to final disposition.

COLLECTION SITE -means a place designated by the District where individuals present themselves for the purpose of providing a specimen of either urine and/or breath.

COMMERCIAL MOTOR VEHICLE -means a motor vehicle, or combination of motor vehicles used in commerce to transport passengers or property if the motor vehicle: (1) has a gross combination weight rating of 26,001 or more pounds inclusive of a towed unit with a gross vehicle weight rating of more than 10,000 pounds; or (2) has a gross vehicle weight rating of 26,001 or more pounds; or (3) is designed to transport 16 or more passengers, including the driver; or (4) is of any size and is used in the transportation of materials found to be hazardous for the purposes of the Hazardous Materials Transportation Act and which require the motor vehicle to be placarded under the Hazardous Materials Regulations.

CONFIRMATION TEST -for alcohol testing means a second test, following a screening test with a result of 0.02 or greater that provides quantitative data of alcohol concentration. For

controlled substances testing this means a second analytical procedure to identify the presence of a specific drug or metabolite which is independent of the screen test and which uses a different technique and chemical principle from that of the screen test in order to ensure reliability and accuracy. (Gas chromatography/mass spectrometry (CG/MS) is the only authorized confirmation method of cocaine, marijuana, opiates, amphetamines, and phencyclidine.)

CONTROLLED SUBSTANCE (DRUG) TEST-A method of detecting and measuring the presence of alcohol and other controlled substances, whether legal or illegal, in a person's body. A controlled substance test may be either an initial test or confirmation test. An initial controlled substance test is designed to identify specimens having concentrations of a particular class of drug above a specified concentration level. It eliminates negative specimens from further consideration.

Controlled substances will be tested under the Department of Health and Human Services guidelines. **The primary (initial or screening) controlled substance test thresholds for a verified positive test result for a safety-sensitive employee are those that are equal to or greater than:**

Amphetamines 1000 ng/ml Cocaine Metabolites 300 ng/ml Marijuana Metabolites 50 ng/ml
Opiates Metabolites 2000 ng/ml Phencyclidine (PCP) 25 ng/ml

The primary (initial or screening) controlled substance test thresholds for a verified positive test result for a non safety-sensitive employee or a safety-sensitive employee tested under District authority are those that are equal to or greater than:

Amphetamines 1000 ng/ml
Barbiturates 300 ng/ml
Benzodiazepines 300 ng/ml Cocaine Metabolites 300 ng/ml Marijuana Metabolites 50 ng/ml
Methadone 300 ng/ml
Methaqualone 300 ng/ml
Opiates 2000 ng/ml
Phencyclidine 25 ng/ml
Propoxyphene 300 ng/ml

A confirmation drug testing is a second analytical procedure to detect the presence of a specific drug or its metabolite. The confirmation procedure is conducted independent of the initial test and uses a different technique and chemical principle in order to confirm reliability and accuracy. **The confirmatory controlled substance test thresholds for a verified positive test result for a safety-sensitive employee are those that are equal to or greater than:**

Amphetamines Amphetamine 500 ng/ml
Methamphetamine (1) 500 ng/ml

Cocaine Metabolite (2) 150 ng/ml
Marijuana Metabolite (THC) (3) 15 ng/ml Opiates
Morphine 2000 ng/ml
Codeine 2000 ng/ml
6-Acetylmorphine (4) 10 ng/ml Phencyclidine (PCP) 25 ng/ml

The confirmatory controlled substance test thresholds for a verified positive test result for a non safety-sensitive employee or a safety-sensitive employee tested under District authority are those that are equal to or greater than:

Amphetamines
Amphetamine 500 ng/ml
Methamphetamine (1) 500 ng/ml
Barbiturates 200 ng/ml
Benzodiazepines 200 ng/ml
Cocaine Metabolites (2) 150 ng/ml
Marijuana Metabolite (THC) (3) 15 ng/ml

1. Specimen must also contain amphetamine at a concentration greater than or equal to 200 ng/ml
2. Benzoyllecgonine
3. Delta-9-tetrahydrocannabinol-9-carboxylic acid
4. Test for 6-Acetylmorphine when morphine concentration exceeds 2000 ng/ml
