

AGENDA
SPECIAL MEETING
GEORGETOWN DIVIDE PUBLIC UTILITY DISTRICT BOARD OF DIRECTORS
6425 MAIN STREET, GEORGETOWN, CA 95634

FRIDAY, MAY 18, 2018
2:00 P.M.

MISSION STATEMENT

It is the purpose of the Georgetown Divide Public Utility District to:

- Provide reliable water supplies
 - Ensure high quality drinking water
 - Promote stewardship to protect community resources, public health, and quality of life
 - Provide excellent and responsive customer services through dedicated and valued staff
 - Ensure fiscal responsibility and accountability are observed by balancing immediate and long-term needs.
-

1. CALL TO ORDER, ROLL CALL, AND PLEDGE OF ALLEGIANCE

2. ADOPTION OF AGENDA

- 3. PUBLIC FORUM** – Any member of the public may address the Board on any matter within the jurisdictional authority of the District. Public members desiring to provide comments, must be recognized by the Board President, and speak from the podium. Comments must be directed only to the Board. The public should address the Board members during the public meetings as President, Vice President, or Director, followed by the Board member's individual last name. The Board will hear communications on matters not on the agenda, but no action will be taken. No disruptive conduct shall be permitted at any Board meeting. Persistence in disruptive conduct shall be grounds for summary termination, by the President, of that person's privilege of address.

4. NEW BUSINESS

A. Irrigation Water Service Appeal by Sam Rounseville

Possible Board Action: Hear, consider, and take action on request to allocate irrigation water by Sam Rounseville.

5. ADJOURN TO CLOSED SESSION - CONFERENCE WITH LEGAL COUNSEL

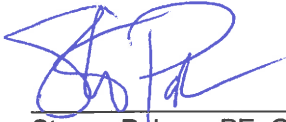

A. ANTICIPATED LITIGATION: Potential litigation pursuant to paragraph (4) of subdivision (d) of Section 54956.9: (one potential case).

B. PUBLIC EMPLOYEE PERFORMANCE EVALUATION
(Pursuant to Government Code section 54957(b)(1))
Title: General Manager

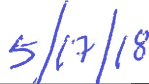

- 6. BOARD MEMBER COMMENTS, REQUESTS FOR ADDITIONS TO FUTURE MEETING AGENDAS AND REQUESTS FOR INFORMATION OR RESEARCH TO BE COMPLETED BY STAFF** –Opportunity for Board members to discuss matters of interest to them and provide input for future meetings as well as report on their District-related meeting attendance.

- 7. NEXT MEETING DATE AND ADJOURNMENT** – Next regular meeting is June 12, 2018, at 2:00 PM, at the Georgetown Divide Public Utility District, 6425 Main Street, Georgetown, CA 95634.

In compliance with the Americans with Disabilities Act, if you are a disabled person and you need a disability-related modification or accommodation to participate in this meeting, please contact Steve Palmer by telephone at 530-333-4356 or by fax at 530-333-9442. Requests must be made as early as possible and at least one-full business day before the start of the meeting. In accordance with Government Code Section 54954.2(a), this agenda was posted on the District's bulletin board at the Georgetown Divide Public Utility District office, at 6425 Main Street, Georgetown, California, on May 16, 2018.

Steven Palmer, PE, General Manager

REPORT TO THE BOARD OF DIRECTORS
BOARD MEETING OF MAY 18, 2018
Agenda Item No. 4.A.

AGENDA SECTION: NEW BUSINESS

SUBJECT: IRRIGATION WATER SERVICE APPEAL BY SAM ROUNSEVILLE

PREPARED BY: Steven Palmer, PE, General Manager

A handwritten signature in blue ink, appearing to be "S. Palmer", is written over the printed name of the General Manager.

BACKGROUND

Mr. Sam Rounseville first applied for irrigation water service in 2015. His application was considered again in 2016, 2017, and 2018. In each year, his application for irrigation water service was denied because there was insufficient water on his route, Route 92. Of those years, water has only been available during one year, 2016. At that time, irrigation water was allocated to three customers with higher priority.

Since the time that irrigation water was allocated to other customers, Mr. Rounseville has routinely communicated with Staff by phone, email, and meetings. Through those conversations, Mr. Rounseville has asserted that the customers who received water did not have higher priority and their applications should have been disqualified. He has raised the following issues with other customers:

1. Did not submit a complete application
2. Did not pay the capital facilities fee
3. Staff called the applicant more than one month after the March 1 deadline and asked them if they wanted irrigation water
4. Staff would not let him submit in 2014
5. Staff submitted applications on behalf of customers that they favored

In response to Mr. Rounseville's complaint, the General Manager and Staff compiled and reviewed the Board summaries, Chart of New Irrigation Requests, and applications from Route 92 dated from 2005 to 2018. The General Manager completed a thorough review of past practices in allocating irrigation water, with specific attention to Route 92. Through that review, the General Manager found that Staff has been consistent in application of the irrigation ordinance (Attachment 1), and the General Manager did not find any evidence that Staff improperly manipulated the allocation process. The General Manager sent a letter to Mr. Rounseville documenting this on April 25, 2018 (Attachment 2).

Mr. Rounseville has subsequently contacted the General Manager and requested an appeal to the Board of Directors. Mr. Rounseville would like the Board to find that his application was the only valid application on Route 92 for 2017, and allocate 1 miner's inch of irrigation water to his property. Mr. Rounseville's request for appeal is included as Attachment 9.

DISCUSSION

Since the District adopted Ordinance 2005-01, Staff has been consistent in the approach to reviewing irrigation applications and allocating irrigation water. Each year, on or about January 1, Staff sends out written notices to current irrigation water customers requesting that they submit a current customer Seasonal Irrigation Service Application (Current Customer Application), Attachment 3. That Current Customer Application requests that the customer indicate if they would like to make a change to their irrigation water service, and requires that the application be submitted to the District prior to March 1. Since the adoption of the Ordinance in 2005, District Staff has not required existing irrigation water customers to submit an Application each year.

Each year, on or about January 1, Staff also sends out written notices to former irrigation water customers requesting that they submit a former customer Seasonal Irrigation Service Application (Former Customer Application), Attachment 4. The Former Customer Application requests that the customer indicate if they would like to reactivate their irrigation service, and requires that the application be submitted to the District prior to March 1.

Additionally, persons that would like a new irrigation water service are able to submit an Application & Agreement for Seasonal Irrigation Service (Attachment 5) between January 1 and March 1. Staff maintains a list of all properties that have submitted applications for new irrigation service, titled Chart of New Irrigation Requests (Attachment 6). This Chart has existed since 2004 and is updated each year. Once a property submits a request for irrigation service, that property is added to the Chart. As irrigation water becomes available, this Chart is used to prepare a summary for approval by the Board (Attachment 7). The Board summary also includes changes requested by existing irrigation water customers. After the Board takes action to approve irrigation service each year, any new irrigation service customers are contacted by Staff to sign and complete their service agreement.

Staff's understanding is that Mr. Rounseville claims three (3) separate applications on Route 92 were invalid. Those service numbers or assessor parcel numbers are listed below along with a brief discussion of Mr. Rounseville's claim and Staff's determination.

092/0030

This customer was allocated water in 2016, after having been inactive for many years. Mr. Rounseville claims that this customer's application was completed by Staff in 2016 and that they were not on the list. Staff reviewed District records and determined that this customer was on the Chart of New Irrigation Requests as shown on Attachment 6. The Board summary (Attachment 7) indicates that they first applied to reactivate service in 2004 however, the application that Staff located in the District records is from 2009 (Attachment 8). As was the standard practice, Staff contacted this customer after the Board approved the allocation and requested that the customer complete and sign the Application & Agreement for Seasonal Irrigation Service.

APN 071-280-28

This new irrigation water customer was allocated water in 2016. Mr. Rounseville claims that this customer's application was completed by Staff in 2016, and that they were not on the list. Staff reviewed District records and determined that this customer was on the Chart of

New Irrigation Requests, Attachment 6, and first applied in 2005. Their application is included in Attachment 8. As was the standard practice, Staff contacted this customer after the Board approved the allocation and requested that the customer complete and sign an updated Application & Agreement for Seasonal Irrigation Service.

101/0195

This is a customer that was converted to inactive in 2001 and is requesting to reactivate service. They first applied to reactivate in 2010. Mr. Rounseville claims that their application is not valid because they did not complete the Application & Agreement for Seasonal Irrigation Service, and they did not submit the capital facilities charge. Staff reviewed District records and found that this customer completed the Former Customer Application in 2010, and a copy is included in Attachment 8. Additionally, since they were an irrigation water customer in the past, they have already paid their capital facility charge and the District cannot charge them again for the same impact fee.

FISCAL IMPACT

There are no fiscal impacts associated with this action.

CEQA ASSESSMENT

This is not a CEQA Project.

RECOMMENDED ACTION

Staff recommends the Board of Directors consider the appeal by Sam Rounseville and approve, deny, or provide direction.

ATTACHMENTS

1. Irrigation Ordinance 2005-01
2. General Manager Letter to Sam Rounseville, dated April 25, 2018

7. Board Summary – 2015, 2016, 2017, 2018
8. Applications from 092/0030, APN 071-280-28, and 101/0195
9. Mr. Rounseville's Appeal

ORDINANCE 2005-01

AN ORDINANCE ESTABLISHING RULES AND REGULATIONS
FOR IRRIGATION SERVICE IN THE GEORGETOWN DIVIDE
PUBLIC UTILITY DISTRICT

BE IT ENACTED by the Board of Directors of the GEORGETOWN DIVIDE PUBLIC UTILITY DISTRICT, County of El Dorado, State of California, as follows:

The rules and regulations for irrigation service within the GEORGETOWN DIVIDE PUBLIC UTILITY DISTRICT ("District") are adopted by the Board of Directors of said District as hereinafter set forth.

SECTION 1. General Conditions:

(a) Control of System: District Works shall be under exclusive control and management of District personnel duly appointed by the Board of Directors.

(b) The District shall not be liable for interruption, shortage or insufficiency of irrigation water supply, or for any loss or damage occasioned thereby.

(c) The District shall not be liable for damage to person or property resulting directly or indirectly from privately owned conduits, meters or measuring devices.

(d) Irrigation water is used at the customer's own risk and the customer agrees to hold the District, its officers and employees free and harmless from liability and damages that may occur as the result of defective water quality, shortages, fluctuation in flow or pressure, interruptions in service or for failure to deliver water.

(e) Pumping of water by the customer is done at the customer's risk. The District assumes no liability for damage to pumping equipment or other damages as a result of turbulent water, shortages, excess of water or other causes.

(f) No purchaser of water from the District acquires a proprietary or vested right by reason of use. No purchaser acquires a right to resell water or to use for a purpose other than that for which it

was applied nor to use it on premises other than indicated on the application. The terms, conditions, priorities and allocation of irrigation service may be altered and amended by the Board of Directors. The District does not guarantee irrigation service customers the right to future service.

(g) The District expressly asserts the right to recapture, reuse and resell all waters originating from District Works.

(h) Ditchtenders and other agents of the District shall have access to all lands irrigated from its water system and to all conduits for the purpose of inspection, examination, measurements, surveys or other necessary purposes of the District with the right of installation, maintenance, control and regulation of all meters and other measuring devices, gates, turnouts and other structures necessary or proper for the measurement and distribution of water.

(i) No bridges, crossing, pipe or other structures shall be placed in or over a canal without written permission of the District. Maintenance of the canal crossings shall not be the District's responsibility but shall rest with the owner of the crossing. Where the owner fails to maintain the crossing, the District may perform the necessary repairs or removal at the expense of the owner. Notice of the District's intent will be given, if possible, to the owner prior to the work commencing.

(j) No rubbish, garbage, refuse, chemicals or animal matter from any source may be placed in or allowed to be emptied into any ditch, canal or reservoir of the District.

(k) District canals or reservoirs shall not be used for swimming or bathing.

(l) Livestock shall not be permitted to contaminate the water supply nor destroy or damage the canal system or use thereof. Property owners are liable for any damage due to livestock.

(m) No conveyance system shall cause a cross connection with the District's water system with any other source of water.

(n) No buildings, corrals or other structures, fences, trees, lines or bushes shall be permitted upon rights-of-way or use thereof be made in any way except by written authority of the District. Construction of

fences and/or gates is not permitted without written approval of the specifications by the General Manager.

(o) Violation of Rules and Regulations: Failure to comply with rules and regulations of the District shall be sufficient cause for terminating irrigation service as determined by the Board of Directors.

(p) Any person dissatisfied with any determination of the District management shall have the right to appeal to the Board of Directors.

(q) Amendments: The Board of Directors of the District may at their discretion alter, amend or add to these rules and regulations. The Board of Directors will follow applicable laws during this process.

SECTION 2. Application for an Irrigation Service Account:

(a) No irrigation service will be rendered until a complete application for an Irrigation Service Account has been approved and is on file at the office of the District. Applications will be accepted between January 1st and March 1st for the impending irrigation season. The application for service shall state that the customer agrees to abide by the terms and conditions for service as established in the Irrigation Ordinance.

(b) Applications will be approved where the District Works have sufficient capacity to meet service requested. Applications will be considered for approval utilizing the following priority system:

- Priority 1. Applications for Irrigation Service to parcels that received irrigation service during the immediate past irrigation season.
- Priority 2. Applications for Irrigation Service to parcels with the most recent active Irrigation Service Account during the previous ten (10) irrigation seasons
- Priority 3. New applications for irrigation service to parcels that have been made after the 2003 irrigation season with priority established by the earliest season applied for. Applications and priority are specific to the section of ditch the parcel is located near.

Competing applications within the same priority level, will be determined by public lottery.

(c) Applications for an increase to service will receive Priority 3 status for the requested increase.

(d) Applications must in all cases be signed by the holder of title to the property requesting irrigation service. If the property requesting irrigation service is leased, two months of charges must be paid in advance. The landowner of leased property shall be responsible for all charges or assessments.

(e) Applications for an Irrigation Service Account to benefit a parcel of land that is not adjacent to the District Works must be accompanied by a legally recorded easement that allows the conveyance of water to the parcel requesting irrigation service. The easement shall grant the District the right of ingress and egress for inspection, installation and maintenance purposes.

(f) New applications for Out-of-District Irrigation Service Accounts will not be approved by the Board of Directors. An existing Out-of-District Irrigation Service Account that is inactive for two or more years will be deleted from the District's accounts and the service will be permanently removed.

SECTION 3. Distribution of Water:

(a) The irrigation season shall generally be from May 1 through October 1 of each year. The Board of Directors shall consider changes to the irrigation season to respond to climactic conditions and may implement such changes by a majority vote.

(b) The District does not guarantee irrigation water under pressure from the District Works. Pressure requirements of the customer are the sole responsibility of the customer and the District shall not be liable for any damage to equipment used to provide pressure to the customer.

(c) Water is distributed under continuous flow. Water must be used continuously during all days and nights including holidays and Sundays and no allowances shall be made for failure to use water when it is made available. Failure to use water on schedule shall not entitle the customer to any rebate.

(d) Irrigation service is provided for the entire irrigation season. Customers shall pay for irrigation service for the entire irrigation season regardless of their interest or ability to use water.

(e) When interruptions to irrigation service due to failure of the District Works extend beyond five (5) days, proportionate adjustments for such water loss will be made.

(f) Irrigation customers shall pay a proportionate amount for irrigation service when the irrigation season is extended or shortened by the Board of Directors.

(g) Unauthorized connections or the taking of water in an amount greater than applied and paid for, by any means, is a misdemeanor under California Penal Code Section 498 and shall be subject to criminal prosecution under Section 498 and any other applicable laws. In addition, the District may bring a civil action for damages and may refuse future service to the parcel.

(h) Irrigation customers shall prevent any unnecessary or wasteful use of water. Should a customer permit wasteful use of water, the District may discontinue service if such condition is not corrected within five (5) days after giving the parcel owner written notice of intention to terminate service.

(i) No more than one parcel shall be served through each Irrigation Service Account except with the prior written approval of the Board of Directors. Any such approval shall be recorded against each parcel with the caveat that the agreement expires upon any change of ownership. Each Irrigation Service Account shall have independent service lines and sumps.

(j) The minimum irrigation service for each Irrigation Service Account shall be one miner's inch, from the open ditch system, and one-half miner's inch from the irrigation pipeline system. In the future, the District may consider reducing the minimum irrigation service to one-half miner's inch from the open ditch system and one-quarter miner's inch from the irrigation pipeline system.

(k) All pumped services shall utilize a sump provided by the customer and acceptable to the District.

(l) All Irrigation Service Accounts must have an appropriate measuring device which shall be installed by the District. The customer shall pay the cost thereof including costs of installation. The District shall approve the location of the measuring device.

(m) Customers receiving irrigation service who request a change in flow rate during the season shall be charged a fee set by the Board of Directors for the adjustment.

(n) Replacement of measuring devices shall be at the expense of the customer if the replacement is necessary due to abnormal wear or abuse.

(o) Alternate Boxes -The Board of Directors shall not approve any new applications for Alternate Boxes.

(p) Unusual costs incurred by the District to provide irrigation service shall be paid in full by the applicant or customer. An estimate of the expense shall be approved by the property owner prior to work commencing.

SECTION 4. Charges, Rates and Billings:

(a) The District will maintain a uniform rate schedule which may be changed from time to time upon action of the Board of Directors. The rate schedule, by reference, is attached hereto and made a part of these rules and regulations.

(b) Irrigation billings are made bi-monthly (every two months) in advance.

(c) All penalties shall be charged as outlined on the billings

(d) Disconnected irrigation service accounts shall pay a fee to re-establish service

(e) Irrigation service accounts requesting verification of flow will pay a fee if the delivered flow is within 10% of the contracted amount

SECTION 5. REPEAL

(a) Upon the effective date of this Ordinance 2005-__ all previously adopted Ordinances pertinent to the Rules and Regulations for

Irrigation Service will be superceded and repealed, including, but not limited to, Ordinance 79-2, 79-8, 87-1, and 04-01.

PASSED AND ADOPTED at a regularly held meeting of the Board of Directors of the GEORGETOWN DIVIDE PUBLIC UTILITY DISTRICT this tenth day of May, 2005.

AYES: Bob Diekon, Norman Krizl, Doug Pickell, JoAnn Shepherd and Hy Vitcov

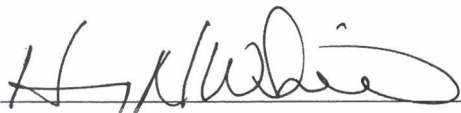

NOES: None

ABSENT: None

GEORGETOWN DIVIDE PUBLIC UTILITY DISTRICT

ATTEST:

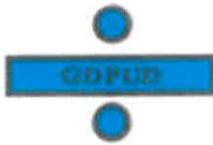

Henry N. White, Clerk and ex officio
Secretary, Board of Directors
GEORGETOWN DIVIDE PUBLIC UTILITY DISTRICT

I hereby certify that the foregoing is a full, true, and correct copy of Ordinance 2005-01 duly and regularly adopted by the Board of Directors of the Georgetown Divide Public Utility District, El Dorado County, California, at a meeting duly held on the tenth day of May, 2005.

A handwritten signature in black ink, appearing to read "H.N. White", written over a horizontal line.

Henry N. White, Clerk and ex officio Secretary of the
Georgetown Divide Public Utility District

April 25, 2018

Sam Rounseville
2025 Ranch Creek Road
Cool, California 95614

By Email: sam@milestonebroker.com

Dear Mr. Rounseville,

As we have discussed, I have completed a thorough review of past practices in assigning irrigation water. I paid specific attention to the applications on your route, Route 92.

My review included a review of Ordinance 2005-01, "An Ordinance Establishing Rules and Regulations for Irrigation Service in the Georgetown Divide Public Utility District," and documentation from prior years going back to 2005. The ordinance does not require that applications be submitted each year. Additionally, past practices at the District over the last 12 years since that ordinance was adopted did not require applications to be submitted each year. This practice is consistent with the Ordinance and based on the District files, this practice was followed since 2005.

Furthermore, staff has consistently followed the Ordinance. The District maintains a list of all properties that have submitted applications for new irrigation service. This list has existed since 2004 and it is updated each year. Once a property submits a request for irrigation service, that property is added to the list. As irrigation water becomes available, this list is used to prepare a summary for approval by the Board. After the Board takes action to approve irrigation service each year, any new irrigation service customers are contacted by staff to sign and complete their service agreement. Based on documentation that I reviewed, this practice has been applied consistently and Route 92 was not handled differently than any other route. For your reference, enclosed is the list of applications for new service.

There was not any irrigation water available on Route 92 this year, and consequently your application for service could not be approved. I have reviewed all relevant documents, conferred with legal counsel and confirmed you are not eligible for water under the District's priority system. Please refrain from contacting any District staff regarding your complaints/concerns and direct any correspondence only to me. If you have any further questions that we have not already discussed, I am available to meet with you one more time when it is convenient for both of us.

Do not attempt to discuss your irrigation water request with District staff. If you are dissatisfied with my conclusion, please file a written appeal to the District Board.

Sincerely,

A handwritten signature in black ink, appearing to read 'SA PA' followed by a horizontal line.

To All Irrigation Service Customers,

The 2018 Irrigation Season will start in a few months and we are eager to provide irrigation service to you.

Please return the bottom half of this letter as it serves as your 2018 Seasonal Irrigation Service Application so we can get your irrigation service request processed and water to you on schedule. We are planning to start water deliveries to your property on May 1st so keep an eye out for our employees cleaning and clearing the ditch in your area to get ready for the season.

Thank you and please let me know if there is anything I can do for your service needs.

December 31, 2017

Dear Former Irrigation Service Customer,

The 2018 irrigation season will start soon and now is the time to submit an application for service if you are interested in re-activating your irrigation service. There is a very limited capacity in the delivery system but we would like to hear from you if you are interested in irrigation service. If you are interested, submit the application below and we will contact you by May 1st if there is water available for your use.

Thank you for your consideration.

Sincerely,

STEVEN PALMER

APPLICATION & AGREEMENT FOR SEASONAL IRRIGATION SERVICE**

CUST #: _____ RT/SERVICE: _____ ASSESSOR'S PARCEL #: _____ DATE: _____

_____, hereinafter called Applicant, has requested Georgetown Divide P.U.D., hereinafter called District, to furnish and deliver to Applicant during each irrigation season this agreement is in effect, 1 miner's inches of untreated water from District's _____ water conduit for use by Applicant for irrigation of: Pasture: ___ (# of acres). Animals/Stock: (type of stock). Orchard, Garden, Other: _____ (# of acres and types of crops or trees) on Applicant's premises located, as hereinafter set forth, in the County of El Dorado, State of California, District is willing to do so subject to the following agreement:

1. Applicant shall comply with and all water delivered hereunder shall be supplied in accordance with District's Ordinance 2005-01 and all applicable rates, rules and regulations established from time to time and which by reference are made a part hereof and shall be used by Applicant only for the purposes and on the premises herein described.
2. Applicant hereby acknowledges notification that all water delivered hereunder is untreated water from open ditches, canals, conduits and flumes and is not delivered for human consumption. The water is not potable or of a quality suitable for human consumption. Applicant shall not use the water or offer it to others for human consumption and shall assume all risks and liabilities in connection with the use of the water for human consumption and shall indemnify and defend the District for damages resulting from human consumption of the water by Applicant or guests or residents of Applicant's property.
3. Deliveries of water hereunder shall be made at the point where water conduit owned, leased or under license by Applicant contacts the outlet of district's said conduit and measurements shall be made as near thereto as practicable. District shall exercise reasonable care and diligence to furnish water service to Applicant hereunder, but shall not be liable for any damage resulting from curtailment, interruption or apportionment of said service occasioned by necessary repairs or maintenance of District's Water conduit system, threatened or actual water shortage, or other causes beyond District's control. District reserves the right to curtail or cease service in response to emergencies or water shortages within the District.
4. During the irrigation season, May 1st. through October 1 st., deliveries of water to Applicant hereunder shall be made at a maximum rate of flow, hereinafter called "seasonal requirement" of ___ miner's inches. The District may extend, reduce, or alter the dates and length of the irrigation season. If the irrigation season is extended by the District, Applicant agrees to pay for the water provided during the extended season, whether or not Applicant uses such water. If the District reduces the season, the rate shall be proportionately reduced. For each year during the term hereof, to the extent provided for herein, this agreement shall be deemed to constitute an application made on or before March 1st for said seasonal requirement; provided, however, Applicant shall have the right to change said seasonal requirement for any ensuing season, after initial season hereunder, by notifying District in writing on or before the April 15th. prior to the commencement of such ensuing season. If the Applicant shall notify District in writing of Applicant's desire for a reduction of his seasonal requirement, this agreement shall thereupon be modified and the rate of flow specified in Applicant's notice shall be the requirement for every season thereafter until again changed as herein provided. If Applicant shall notify District in writing of Applicant's desire to increase his seasonal requirement, this agreement shall thereupon be deemed modified only in the event and to the extent that District shall designate in writing to Applicant that it will have water available to furnish such increased rate of flow.
5. The charge each year for Applicants said seasonal requirement and said shall be computed at the rates of District's Irrigation Rate Schedule, which is made a part hereof, or such other applicable schedule in lieu thereof as may be provided by the Board of Directors of District and Applicant shall pay the full amount thereof whether or not all of said requirement is actually used. Applicant shall pay said charge each year to District at its office in Georgetown upon presentation to Applicant of a bill therefore.
6. All necessary miner's inch measuring boxes for the service herein provided for will be installed by District but Applicant shall pay the cost thereof, including cost of installation, and Water Development Charge, upon receiving statements therefore from District.
7. This contract shall remain in force for the term of one (1) year from and after the date hereof, and thereafter from year to year, provided, however, either party shall have the right to terminate this agreement at the expiration of either the initial year or any subsequent year by giving the other thirty (30) days written notice of a desire for such termination. Payment of fees or charges by applicant shall not preclude cancellation of this agreement by District.
8. This application will be accompanied by an advance payment of one month at the basic rate of ---- per month. This agreement shall be subject to such changes and modifications by said Board of Directors as said Board of Directors may, from time to time, direct in the exercise of its jurisdiction.

**GEORGETOWN DIVIDE PUBLIC UTILITY DISTRICT
APPLICATION & AGREEMENT FOR SEASONAL IRRIGATION SERVICE**

CUST #: [REDACTED] RT/SERVICE: 092/0030 ASSESSOR'S PARCEL #: 071-280-36 DATE: 4/22/16

[REDACTED] hereinafter called Applicant, has requested Georgetown Divide P.U.D., hereinafter called District, to furnish and deliver to Applicant during each irrigation season this agreement is in effect, [REDACTED] miner's inches of untreated water from District's Pilot Hill Ditch water conduit for use by Applicant for irrigation of: Pasture: [REDACTED] (# of acres). Animals/Stock: (type of stock). Orchard, Garden, Other: [REDACTED] (# of acres and types of crops or trees) on Applicant's premises located, as hereinafter set forth, in the County of El Dorado, State of California, District is willing to do so subject to the following agreement:

1. Applicant shall comply with and all water delivered hereunder shall be supplied in accordance with District's Ordinance 2005-01 and all applicable rates, rules and regulations established from time to time and which by reference are made a part hereof and shall be used by Applicant only for the purposes and on the premises herein described.
2. Applicant hereby acknowledges notification that all water delivered hereunder is untreated water from open ditches, canals, conduits and flumes and is not delivered for human consumption. The water is not potable or of a quality suitable for human consumption. Applicant shall not use the water or offer it to others for human consumption and shall assume all risks and liabilities in connection with the use of the water for human consumption and shall indemnify and defend the District for damages resulting from human consumption of the water by Applicant or guests or residents of Applicant's property.
3. Deliveries of water hereunder shall be made at the point where water conduit owned, leased or under license by Applicant contacts the outlet of district's said conduit and measurements shall be made as near thereto as practicable. District shall exercise reasonable care and diligence to furnish water service to Applicant hereunder, but shall not be liable for any damage resulting from curtailment, interruption or apportionment of said service occasioned by necessary repairs or maintenance of District's Water conduit system, threatened or actual water shortage, or other causes beyond District's control. District reserves the right to curtail or cease service in response to emergencies or water shortages within the District.
4. During the irrigation season, May 1st. through October 1st., deliveries of water to Applicant hereunder shall be made at a maximum rate of flow, hereinafter called "seasonal requirement" of [REDACTED] miner's inches. The District may extend, reduce, or alter the dates and length of the irrigation season. If the irrigation season is extended by the District, Applicant agrees to pay for the water provided during the extended season, whether or not Applicant uses such water. If the District reduces the season, the rate shall be proportionately reduced. For each year during the term hereof, to the extent provided for herein, this agreement shall be deemed to constitute an application made on or before March 1st for said seasonal requirement; provided, however, Applicant shall have the right to change said seasonal requirement for any ensuing season, after initial season hereunder, by notifying District in writing on or before the April 15th. prior to the commencement of such ensuing season. If the Applicant shall notify District in writing of Applicant's desire for a reduction of his seasonal requirement, this agreement shall thereupon be modified and the rate of flow specified in Applicant's notice shall be the requirement for every season thereafter until again changed as herein provided. If Applicant shall notify District in writing of Applicant's desire to increase his seasonal requirement, this agreement shall thereupon be deemed modified only in the event and to the extent that District shall designate in writing to Applicant that it will have water available to furnish such increased rate of flow.
5. The charge each year for Applicants said seasonal requirement and said shall be computed at the rates of District's Irrigation Rate Schedule, which is made a part hereof, or such other applicable schedule in lieu thereof as may be provided by the Board of Directors of District and Applicant shall pay the full amount thereof whether or not all of said requirement is actually used. Applicant shall pay said charge each year to District at its office in Georgetown upon presentation to Applicant of a bill therefore.
6. All necessary miner's inch measuring boxes for the service herein provided for will be installed by District but Applicant shall pay the cost thereof, including cost of installation, and Water Development Charge, upon receiving statements therefore from District.
7. This contract shall remain in force for the term of one (1) year from and after the date hereof, and thereafter from year to year, provided, however, either party shall have the right to terminate this agreement at the expiration of either the initial year or any subsequent year by giving the other thirty (30) days written notice of a desire for such termination. Payment of fees or charges by applicant shall not preclude cancellation of this agreement by District.
8. This application will be accompanied by an advance payment of one month at the basic rate of 12.74 per month. This agreement shall be subject to such changes and modifications by said Board of Directors as said Board of Directors may, from time to time, direct in the exercise of its jurisdiction.

Georgetown Divide Public Utility District
2009 SEASONAL IRRIGATION SERVICE REQUEST
Complete and return this portion to G.D.P.U.D. by February 23, 2009

Would you supply a pond with irrigation water? Yes No

Total acreage you manage: 3 Total acreage you would irrigate: 2

Specify types of crops and number of acres of each that you raise: [REDACTED]

Specify the type of stock: cattle, sheep, swine or other uses: [REDACTED]

I would like to receive 1 miner's inch (es). By signing and returning this form, I am contracting irrigation water, if available to me, for the 2009 season, in accordance with Ordinance 2005-01. I understand that if I were to receive irrigation water it would be available by May 1st or thereafter, as determined by the Board of Directors.

**GEORGETOWN DIVIDE PUBLIC UTILITY DISTRICT
APPLICATION & AGREEMENT FOR SEASONAL IRRIGATION SERVICE**

CUST #: [REDACTED] RT/SERVICE: **092/** ASSESSOR'S PARCEL #: **071-280-28** DATE: **January 14, 2005**

[REDACTED], hereinafter called Applicant, has requested Georgetown Divide P.U.D., hereinafter called District, to furnish and deliver to Applicant during each irrigation season this agreement is in effect, _____ miner's inches of untreated water from District's **PILOT HILL DITCH** water conduit for use by Applicant for irrigation of: Pasture: ___ (# of acres). Animals/Stock: _____ (type of stock). Orchard, Garden, Other: _____ (# of acres and types of crops or trees) on Applicant's premises located, as hereinafter set forth, in the County of El Dorado, State of California, District is willing to do so subject to the following agreement:

1. Applicant shall comply with and all water delivered hereunder shall be supplied in accordance with District's Ordinance 2004-01 and all applicable rates, rules and regulations established from time to time and which by reference are made a part hereof and shall be used by Applicant only for the purposes and on the premises herein described.
2. Applicant hereby acknowledges notification that all water delivered hereunder is untreated water from open ditches, canals, conduits and flumes and is not delivered for human consumption. The water is not potable or of a quality suitable for human consumption. Applicant shall not use the water or offer it to others for human consumption and shall assume all risks and liabilities in connection with the use of the water for human consumption and shall indemnify and defend the District for damages resulting from human consumption of the water by Applicant or guests or residents of Applicant's property.
3. Deliveries of water hereunder shall be made at the point where water conduit owned, leased or under license by Applicant contacts the outlet of district's said conduit and measurements shall be made as near thereto as practicable. District shall exercise reasonable care and diligence to furnish water service to Applicant hereunder, but shall not be liable for any damage resulting from curtailment, interruption or apportionment of said service occasioned by necessary repairs or maintenance of District's Water conduit system, threatened or actual water shortage, or other causes beyond District's control. District reserves the right to curtail or cease service in response to emergencies or water shortages within the District.
4. During the irrigation season, May 15th. through October 15th., deliveries of water to Applicant hereunder shall be made at a maximum rate of flow, hereinafter called "seasonal requirement" of _____ miner's inches. The District may extend, reduce, or alter the dates and length of the irrigation season. If the irrigation season is extended by the District, Applicant agrees to pay for the water provided during the extended season, whether or not Applicant uses such water. If the District reduces the season, the rate shall be proportionately reduced. For each year during the term hereof, to the extent provided for herein, this agreement shall be deemed to constitute an application made on or before April 1st for said seasonal requirement; provided, however, Applicant shall have the right to change said seasonal requirement for any ensuing season, after initial season hereunder, by notifying District in writing on or before the April 15th. prior to the commencement of such ensuing season. If the Applicant shall notify District in writing of Applicant's desire for a reduction of his seasonal requirement, this agreement shall thereupon be modified and the rate of flow specified in Applicant's notice shall be the requirement for every season thereafter until again changed as herein provided. If Applicant shall notify District in writing of Applicant's desire to increase his seasonal requirement, this agreement shall thereupon be deemed modified only in the event and to the extent that District shall designate in writing to Applicant that it will have water available to furnish such increased rate of flow.
5. The charge each year for Applicants said seasonal requirement and said shall be computed at the rates of District's Irrigation Rate Schedule, which is made a part hereof, or such other applicable schedule in lieu thereof as may be provided by the Board of Directors of District and Applicant shall pay the full amount thereof whether or not all of said requirement is actually used. Applicant shall pay said charge each year to District at its office in Georgetown upon presentation to Applicant of a bill therefore.
6. All necessary miner's inch measuring boxes for the service herein provided for will be installed by District but Applicant shall pay the cost thereof, including cost of installation, and Water Development Charge, upon receiving statements therefore from District.
7. This contract shall remain in force for the term of one (1) year from and after the date hereof, and thereafter from year to year, provided, however, either party shall have the right to terminate this agreement at the expiration of either the initial year or any subsequent year by giving the other thirty (30) days written notice of a desire for such termination. Payment of fees or charges by applicant shall not preclude cancellation of this agreement by District.
8. This application will be accompanied by an advance payment of one month at the basic rate of _____ per month. This agreement shall be subject to such changes and modifications by said Board of Directors as said Board of Directors may, from time to time, direct in the exercise of its jurisdiction.

Dear Honorable Board Members,

Available water was given to applications that were, according to the ordinance, no good. Available water should have been available to 2017 applicants. My application was the only valid application for Route 92 in 2017. Please give me my 1" of irrigation water.

Sincerely,

Samuel C. Rounseville

ORDINANCE 2005-01

**AN ORDINANCE ESTABLISHING RULES AND REGULATIONS
FOR IRRIGATION SERVICE IN THE GEORGETOWN DIVIDE
PUBLIC UTILITY DISTRICT**

BE IT ENACTED by the Board of Directors of the GEORGETOWN DIVIDE PUBLIC UTILITY DISTRICT, County of El Dorado, State of California, as follows:

The rules and regulations for irrigation service within the GEORGETOWN DIVIDE PUBLIC UTILITY DISTRICT ("District") are adopted by the Board of Directors of said District as hereinafter set forth.

SECTION 1. General Conditions:

(a) **Control of System:** District Works shall be under exclusive control and management of District personnel duly appointed by the Board of Directors.

(b) The District shall not be liable for interruption, shortage or insufficiency of irrigation water supply, or for any loss or damage occasioned thereby.

(c) The District shall not be liable for damage to person or property resulting directly or indirectly from privately owned conduits, meters or measuring devices.

(d) Irrigation water is used at the customer's own risk and the customer agrees to hold the District, its officers and employees free and harmless from liability and damages that may occur as the result of defective water quality, shortages, fluctuation in flow or pressure, interruptions in service or for failure to deliver water.

(e) Pumping of water by the customer is done at the customer's risk. The District assumes no liability for damage to pumping equipment or other damages as a result of turbulent water, shortages, excess of water or other causes.

(f) No purchaser of water from the District acquires a proprietary or vested right by reason of use. No purchaser acquires a right to resell water or to use for a purpose other than that for which it

was applied nor to use it on premises other than indicated on the application. The terms, conditions, priorities and allocation of irrigation service may be altered and amended by the Board of Directors. The District does not guarantee irrigation service customers the right to future service.

(g) The District expressly asserts the right to recapture, reuse and resell all waters originating from District Works.

(h) Ditchtenders and other agents of the District shall have access to all lands irrigated from its water system and to all conduits for the purpose of inspection, examination, measurements, surveys or other necessary purposes of the District with the right of installation, maintenance, control and regulation of all meters and other measuring devices, gates, turnouts and other structures necessary or proper for the measurement and distribution of water.

(i) No bridges, crossing, pipe or other structures shall be placed in or over a canal without written permission of the District. Maintenance of the canal crossings shall not be the District's responsibility but shall rest with the owner of the crossing. Where the owner fails to maintain the crossing, the District may perform the necessary repairs or removal at the expense of the owner. Notice of the District's intent will be given, if possible, to the owner prior to the work commencing.

(j) No rubbish, garbage, refuse, chemicals or animal matter from any source may be placed in or allowed to be emptied into any ditch, canal or reservoir of the District.

(k) District canals or reservoirs shall not be used for swimming or bathing.

(l) Livestock shall not be permitted to contaminate the water supply nor destroy or damage the canal system or use thereof. Property owners are liable for any damage due to livestock.

(m) No conveyance system shall cause a cross connection with the District's water system with any other source of water.

(n) No buildings, corrals or other structures, fences, trees, lines or bushes shall be permitted upon rights-of-way or use thereof be made in any way except by written authority of the District. Construction of

fences and/or gates is not permitted without written approval of the specifications by the General Manager.

(o) Violation of Rules and Regulations: Failure to comply with rules and regulations of the District shall be sufficient cause for terminating irrigation service as determined by the Board of Directors.

(p) Any person dissatisfied with any determination of the District management shall have the right to appeal to the Board of Directors.

(q) Amendments: The Board of Directors of the District may at their discretion alter, amend or add to these rules and regulations. The Board of Directors will follow applicable laws during this process.

SECTION 2. Application for an Irrigation Service Account:

(a) No irrigation service will be rendered until a complete application for an Irrigation Service Account has been approved and is on file at the office of the District. Applications will be accepted between January 1st and March 1st for the impending irrigation season. The application for service shall state that the customer agrees to abide by the terms and conditions for service as established in the Irrigation Ordinance.

(b) Applications will be approved where the District Works have sufficient capacity to meet service requested. Applications will be considered for approval utilizing the following priority system:

- Priority 1. Applications for Irrigation Service to parcels that received irrigation service during the immediate past irrigation season.
- Priority 2. Applications for Irrigation Service to parcels with the most recent active Irrigation Service Account during the previous ten (10) irrigation seasons
- Priority 3. New applications for irrigation service to parcels that have been made after the 2003 irrigation season with priority established by the earliest season applied for. Applications and priority are specific to the section of ditch the parcel is located near.

Competing applications within the same priority level, will be determined by public lottery.

(c) Applications for an increase to service will receive Priority 3 status for the requested increase.

(d) Applications must in all cases be signed by the holder of title to the property requesting irrigation service. If the property requesting irrigation service is leased, two months of charges must be paid in advance. The landowner of leased property shall be responsible for all charges or assessments.

(e) Applications for an Irrigation Service Account to benefit a parcel of land that is not adjacent to the District Works must be accompanied by a legally recorded easement that allows the conveyance of water to the parcel requesting irrigation service. The easement shall grant the District the right of ingress and egress for inspection, installation and maintenance purposes.

(f) New applications for Out-of-District Irrigation Service Accounts will not be approved by the Board of Directors. An existing Out-of-District Irrigation Service Account that is inactive for two or more years will be deleted from the District's accounts and the service will be permanently removed.

SECTION 3. Distribution of Water:

(a) The irrigation season shall generally be from May 1 through October 1 of each year. The Board of Directors shall consider changes to the irrigation season to respond to climactic conditions and may implement such changes by a majority vote.

(b) The District does not guarantee irrigation water under pressure from the District Works. Pressure requirements of the customer are the sole responsibility of the customer and the District shall not be liable for any damage to equipment used to provide pressure to the customer.

(c) Water is distributed under continuous flow. Water must be used continuously during all days and nights including holidays and Sundays and no allowances shall be made for failure to use water when it is made available. Failure to use water on schedule shall not entitle the customer to any rebate.

(d) Irrigation service is provided for the entire irrigation season. Customers shall pay for irrigation service for the entire irrigation season regardless of their interest or ability to use water.

(e) When interruptions to irrigation service due to failure of the District Works extend beyond five (5) days, proportionate adjustments for such water loss will be made.

(f) Irrigation customers shall pay a proportionate amount for irrigation service when the irrigation season is extended or shortened by the Board of Directors.

(g) Unauthorized connections or the taking of water in an amount greater than applied and paid for, by any means, is a misdemeanor under California Penal Code Section 498 and shall be subject to criminal prosecution under Section 498 and any other applicable laws. In addition, the District may bring a civil action for damages and may refuse future service to the parcel.

(h) Irrigation customers shall prevent any unnecessary or wasteful use of water. Should a customer permit wasteful use of water, the District may discontinue service if such condition is not corrected within five (5) days after giving the parcel owner written notice of intention to terminate service.

(i) No more than one parcel shall be served through each Irrigation Service Account except with the prior written approval of the Board of Directors. Any such approval shall be recorded against each parcel with the caveat that the agreement expires upon any change of ownership. Each Irrigation Service Account shall have independent service lines and sumps.

(j) The minimum irrigation service for each Irrigation Service Account shall be one miner's inch, from the open ditch system, and one-half miner's inch from the irrigation pipeline system. In the future, the District may consider reducing the minimum irrigation service to one-half miner's inch from the open ditch system and one-quarter miner's inch from the irrigation pipeline system.

(k) All pumped services shall utilize a sump provided by the customer and acceptable to the District.

(l) All Irrigation Service Accounts must have an appropriate measuring device which shall be installed by the District. The customer shall pay the cost thereof including costs of installation. The District shall approve the location of the measuring device.

(m) Customers receiving irrigation service who request a change in flow rate during the season shall be charged a fee set by the Board of Directors for the adjustment.

(n) Replacement of measuring devices shall be at the expense of the customer if the replacement is necessary due to abnormal wear or abuse.

(o) Alternate Boxes -The Board of Directors shall not approve any new applications for Alternate Boxes.

(p) Unusual costs incurred by the District to provide irrigation service shall be paid in full by the applicant or customer. An estimate of the expense shall be approved by the property owner prior to work commencing.

SECTION 4. Charges, Rates and Billings:

(a) The District will maintain a uniform rate schedule which may be changed from time to time upon action of the Board of Directors. The rate schedule, by reference, is attached hereto and made a part of these rules and regulations.

(b) Irrigation billings are made bi-monthly (every two months) in advance.

(c) All penalties shall be charged as outlined on the billings

(d) Disconnected irrigation service accounts shall pay a fee to re-establish service

(e) Irrigation service accounts requesting verification of flow will pay a fee if the delivered flow is within 10% of the contracted amount

SECTION 5. REPEAL

(a) Upon the effective date of this Ordinance 2005-__ all previously adopted Ordinances pertinent to the Rules and Regulations for

Irrigation Service will be superceded and repealed, including, but not limited to, Ordinance 79-2, 79-8, 87-1, and 04-01.

PASSED AND ADOPTED at a regularly held meeting of the Board of Directors of the GEORGETOWN DIVIDE PUBLIC UTILITY DISTRICT this tenth day of May, 2005.

Re: Irrigation Service Application for the 2017 Season, APN 071-280-66

\$2,300

Dear Mr. & Mrs. Rounseville,

Enclosed please find your check for the \$2,300.00 Water Development Charge. The Board of Directors has directed staff to maintain flows in the various routes of the irrigation system to the same level as the 2003 season. Unfortunately, the water balance in your route area did not allow approving your application.

Currently, the interpretation of the Ordinance requires you to submit a complete application annually in order to be considered for irrigation service in the future. Applications for the impending season will be accepted from January 1 to March 1 of that year. Please contact the District's office during these dates for an application. You will be required to submit the water development charge of \$2,300.00 with the application. Your proof of easement, if required, will need to be submitted for your application to be complete. Enclosed is a copy of GDPUD Ordinance 2005-01 for your records.

Please contact Stephanie Beck at the District's office should you have additional questions on this matter.

Sincerely,

STEVEN PALMER
General Manager

CUST #: J09819 RT/SERVICE: SEWER ASSESSOR'S PARCEL #: 871-288-34 DATE: 4/2/14

Mary Jones, hereinafter called Applicant, has requested Georgetown Divide P.U.D., hereinafter called District, to furnish and deliver to Applicant during each irrigation season this agreement is in effect, 1 minor's inches of untreated water from District's Plant Hill District water conduit for use by Applicant for irrigation of Pasture (of acres). Animals/Stock: (type of stock): Cow, Goat, Other: None (if of acres and types of crops or trees) on Applicant's premises located, as hereinafter set forth, in the County of El Dorado, State of California, District is willing to do so subject to the following agreement:

1. Applicant shall comply with and all water delivered hereunder shall be supplied in accordance with District's Ordinance 2003-01 and all applicable rates, rules and regulations established from time to time and which by reference are made a part hereof and shall be used by Applicant only for the purposes and on the premises herein described.
2. Applicant hereby acknowledges notification that all water delivered hereunder is untreated water from open ditches, canals, conduits and flumes and is not delivered for human consumption. The water is not potable or of a quality suitable for human consumption. Applicant shall not use the water or offer it to others for human consumption and shall assume all risks and liabilities in connection with the use of the water for human consumption and shall indemnify and defend the District for damages resulting from human consumption of the water by Applicant or guests or residents of Applicant's property.
3. Deliveries of water hereunder shall be made at the point where water conduit owned, leased or under license by Applicant crosses the outlet of District's said conduit and measurements shall be made as near thereto as practicable. District shall exercise reasonable care and diligence to furnish water service to Applicant hereunder, but shall not be liable for any damage resulting from curtailment, interruption or discontinuance of said service occasioned by necessary repairs or maintenance of District's Water Conduit system, threatened or actual water shortage, or other causes beyond District's control. District reserves the right to curtail or cease service in response to emergencies or water shortages within the District.
4. During the irrigation season, May 1st through October 1st, deliveries of water to Applicant hereunder shall be made at a maximum rate of flow, hereinafter called "seasonal requirement" of 1 minor's inches. The District may extend, reduce, or alter the date and length of the irrigation season. If the irrigation season is extended by the District, Applicant agrees to pay for the water provided during the extended season, whether or not Applicant uses such water. If the District reduces the season, the rate shall be proportionately reduced. For each year during the term hereof, to the extent provided for herein, this agreement shall be deemed to constitute an application made on or before March 1st for said seasonal requirement; provided, however, Applicant shall have the right to change said seasonal requirement for any ensuing season, after initial season hereunder, by notifying District in writing on or before the April 15th, prior to the commencement of such ensuing season. If the Applicant shall notify District in writing of Applicant's desire for a reduction of his seasonal requirement, this agreement shall thereupon be modified and the rate of flow specified in Applicant's notice shall be the requirement for every season thereafter until again changed as herein provided. If Applicant shall notify District in writing of Applicant's desire to increase his seasonal requirement, this agreement shall thereupon be deemed modified only in the event and to the extent that District shall designate in writing to Applicant that it will have water available to furnish such increased rate of flow.
5. The charge each year for Applicant's said seasonal requirement and said shall be computed at the rates of District's Irrigation Rate Schedule, which is made a part hereof, or such other applicable schedule in law thereof as may be provided by the Board of Directors of District and Applicant shall pay the full amount thereof whether or not all of said requirement is actually used. Applicant shall pay said charge each year to District at its office in Georgetown upon presentation to Applicant of a bill therefor.
6. All necessary minor's inch measuring boxes for the service herein provided for will be installed by District but Applicant shall pay the cost thereof, including cost of installation, and Water Development Charge, upon receiving statements therefor from District.
7. This contract shall remain in force for the term of one (1) year from and after the date hereof, and thereafter from year to year, provided, however, either party shall have the right to terminate this agreement at the expiration of either the initial year or any subsequent year by giving the other thirty (30) days written notice of a desire for such termination. Payment of fees or charges by applicant shall not preclude cancellation of this agreement by District.
8. This application will be accompanied by an advance payment of one month at the basic rate of 92.94 per month. This agreement shall be subject to such changes and modifications by said Board of Directors as said Board of Directors may, from time to time, direct in the exercise of its jurisdiction.

**GEORGETOWN DIVIDE PUBLIC UTILITY DISTRICT
APPLICATION & AGREEMENT FOR SEASONAL IRRIGATION SERVICE**

CUST #: ROU**** RT/SERVICE: 092/*** ASSESSOR'S PARCEL #: 071-280-66 DATE: 1/20/17 ←

Samuel and Brittany Roundville, hereinafter called Applicant, has requested Georgetown Divide P.U.D., hereinafter called District, to furnish and deliver to Applicant during each irrigation season this agreement is in effect, 1 miner's inches of untreated water from District's Pilot Hill Ditch water conduit for use by Applicant for irrigation of: Pasture: (# of acres). Animals/Stock: (type of stock). Orchard, Garden, Other: _____ (# of acres and types of crops or trees) on Applicant's premises located, as hereinafter set forth, in the County of El Dorado, State of California, District is willing to do so subject to the following agreement:

1. Applicant shall comply with and all water delivered hereunder shall be supplied in accordance with District's Ordinance 2005-01 and all applicable rates, rules and regulations established from time to time and which by reference are made a part hereof and shall be used by Applicant only for the purposes and on the premises herein described.
2. Applicant hereby acknowledges notification that all water delivered hereunder is untreated water from open ditches, canals, conduits and flumes and is not delivered for human consumption. The water is not potable or of a quality suitable for human consumption. Applicant shall not use the water or offer it to others for human consumption and shall assume all risks and liabilities in connection with the use of the water for human consumption and shall indemnify and defend the District for damages resulting from human consumption of the water by Applicant or guests or residents of Applicant's property.
3. Deliveries of water hereunder shall be made at the point where water conduit owned, leased or under license by Applicant contacts the outlet of district's said conduit and measurements shall be made as near thereto as practicable. District shall exercise reasonable care and diligence to furnish water service to Applicant hereunder, but shall not be liable for any damage resulting from curtailment, interruption or apportionment of said service occasioned by necessary repairs or maintenance of District's Water conduit system, threatened or actual water shortage, or other causes beyond District's control. District reserves the right to curtail or cease service in response to emergencies or water shortages within the District.
4. During the irrigation season, May 1st. through October 1st, deliveries of water to Applicant hereunder shall be made at a maximum rate of flow, hereinafter called "seasonal requirement" of 1 miner's inches. The District may extend, reduce, or alter the dates and length of the irrigation season. If the irrigation season is extended by the District, Applicant agrees to pay for the water provided during the extended season, whether or not Applicant uses such water. If the District reduces the season, the rate shall be proportionately reduced. For each year during the term hereof, to the extent provided for herein, this agreement shall be deemed to constitute an application made on or before March 1st for said seasonal requirement; provided, however, Applicant shall have the right to change said seasonal requirement for any ensuing season, after initial season hereunder, by notifying District in writing on or before the April 15th. prior to the commencement of such ensuing season. If the Applicant shall notify District in writing of Applicant's desire for a reduction of his seasonal requirement, this agreement shall thereupon be modified and the rate of flow specified in Applicant's notice shall be the requirement for every season thereafter until again changed as herein provided. If Applicant shall notify District in writing of Applicant's desire to increase his seasonal requirement, this agreement shall thereupon be deemed modified only in the event and to the extent that District shall designate in writing to Applicant that it will have water available to furnish such increased rate of flow.
5. The charge each year for Applicants said seasonal requirement and said shall be computed at the rates of District's Irrigation Rate Schedule, which is made a part hereof, or such other applicable schedule in lieu thereof as may be provided by the Board of Directors of District and Applicant shall pay the full amount thereof whether or not all of said requirement is actually used. Applicant shall pay said charge each year to District at its office in Georgetown upon presentation to Applicant of a bill therefore.
6. All necessary miner's inch measuring boxes for the service herein provided for will be installed by District but Applicant shall pay the cost thereof, including cost of installation, and Water Development Charge, upon receiving statements therefrom from District.
7. This contract shall remain in force for the term of one (1) year from and after the date hereof, and thereafter from year to year, provided, however, either party shall have the right to terminate this agreement at the expiration of either the initial year or any subsequent year by giving the other thirty (30) day's written notice of a desire for such termination. Payment of fees or charges by applicant shall not preclude cancellation of this agreement by District.
8. This application will be accompanied by an advance payment of one month at the basic rate of —per month. This agreement shall be subject to such changes and modifications by said Board of Directors as said Board of Directors may, from time to time, direct in the exercise of its jurisdiction.

Re: Irrigation Service Application for the 2017 Season, APN 071-280-66

\$2,300

Dear Mr. & Mrs. Rounseville,

Enclosed please find your check for the \$2,300.00 Water Development Charge. The Board of Directors has directed staff to maintain flows in the various routes of the irrigation system to the same level as the 2003 season. Unfortunately, the water balance in your route area did not allow approving your application.

Currently, the interpretation of the Ordinance requires you to submit a complete application annually in order to be considered for irrigation service in the future. Applications for the impending season will be accepted from January 1 to March 1 of that year. Please contact the District's office during these dates for an application. You will be required to submit the water development charge of \$2,300.00 with the application. Your proof of easement, if required, will need to be submitted for your application to be complete. Enclosed is a copy of GDPUD Ordinance 2005-01 for your records.

Please contact Stephanie Beck at the District's office should you have additional questions on this matter.

Sincerely,

STEVEN PALMER
General Manager
